

# HOW TO PURIFY WATER

The act of purifying water should be left to trusted professionals. However, there are instances where we must know how to do it ourselves, such as back-country camping or living in areas where there is not access to clean water. Listed below are 5 ways to purify water on your own:

1. BOILING
2. USE OF IODINE SOLUTION, TABLETS OR CRYSTALS
3. CHLORINE DROPS
4. ULTRAVIOLET LIGHT
5. WATER FILTER
