

How to enable color printing of html scorecards and progress reports

Follow these steps to enable background color printing in your web browser

1. Firefox

<https://support.mozilla.org/en-US/kb/how-print-web-pages-firefox>

Choose **Print Preview**, **Page Setup** and Select **Print Background (colors & images)** to have Firefox print backgrounds for web pages. Otherwise, Firefox leaves page backgrounds white.

2. Chrome

Right click on the page and choose to **Print**, click **More Setting** and tick the option to print **Background Graphics**.

3. Internet Explorer 11

- Open Internet Explorer 11
- Click on the gear  at the top right
- Hover above **Print**
- Then click **Page Setup**
- Check the box for **Background Colors and Images**

4. Safari

Choose **File Print**, then tick the option to **Print Backgrounds**.

5. Microsoft Edge

Unfortunately background color printing of web pages is **not supported**.
