TWO WAY MODEL

TWO WAY MODEL - TYPE 2016

Overall length: 11825 mm
Overall width: 2540 mm
Interior height: 2300 mm
Fresh water: 500l
Waste water: 500l
Tyre size: 245/70 R17,5

FRAME

Chassis structure "U" steel profiles - painted
Chassis color according to customer's wish
Quality of the material, construction steel, label S355
"I" frame homologated drawbar - type 2016 UNIACT 9
Dual 5500 kg axle with pneumatic suspension
Mudguards with anti-spray suppression
Static load support legs (corner steadies) x4
Entrance fold-up stairs with three steps, electric operated
Manual operated slides x2
Rear side mounted spare tyre

CONSTRUCTION

Fully laminated composite panels
Fiberglass windows on each side x2, on the front and rear side x1
High quality entrance door with fiberglass window on it - Dometic
Roof mounted fiberglass windows for each apartment - Dometic
Roof mounted ventilation, for the toilet of each apartment - Fiamma

ELECTRICAL

Electrical distribution cabinet 12V and 220V/380V which has additional electronic control unit with displays.
Electronic control unit controls and turn on the lights, recharge the batteries and maintain a stable voltage.
220V fuse box for all consumers inside the apartment (water heater, TV, air conditioning, refrigerator, sockets)
Switches 12V for additional tank heaters, water pipe heaters, electric stairs, outdoor lighting, water pump, water heater and apartment lighting.
Particular fuses for each apartment (lights, sockets, water heaters, air conditioning).
