

A **GMRS license** is currently \$70, lasts for 10 years, is shared by you and your immediate family, and with a simple [online user registration](#) (do this first to get an FRN (FCC Registration Number), then log in) and license application, is typically granted within just a few days (or less).

NEWS FLASH: The FCC has agreed to lower the GMRS license fee to \$35, expected to be in effect in the FCC ULS sometime in 2022. More details to come.

(FRS use is not allowed on the 467MHz GMRS Repeater inputs on chs. 15-22, but is now allowed on the 462MHz GMRS Repeater outputs – GMRS allows “wide” FM for simplex or repeater use on chs. 1-7 & 15-22 – NFM = 12.5kHz, MFM = 20kHz – CALL = Calling Channel – EM = Emergency/Prepper freq. – TR = Travel Safety & Assistance)
