

APRIL 2024

Several members of COIFFE's Executive Committee attended State Assembly in Pueblo Colorado on April 5th and 6th. Matt Gaetz, representing President Trump, was the guest speaker. We were pleased to see the COGOP choose to hand count ballots for COGOP National Committeewoman at Assembly.

COIFFE HIGHLIGHTS/NEWS

- ◆ Task Force: United Sovereign Americans (USA) is gaining momentum and far more visibility as many state teams wrap up their scorecards of apparent voter roll violations. Significant growth in volunteers for the Colorado Chapter of USA has been achieved via exposure of USA through podcasts and media, plus recruiting by current Colorado volunteers. Volunteers recently presented the "Colorado Resolution" in five meetings: Littleton City Council, Centennial City Council, and Montrose City Council, County Commissioners, and to the Republican Party. The Task Force's current major focus: fundraising, media exposure and education by presentation of the "Colorado Resolution" document. Funding for upcoming Federal District Court lawsuits is high on the list of priorities.
- ◆ On Friday, April 19th, members of COIFFE presented an overview of our efforts on election integrity in Colorado and preliminary findings to the GYRO Club of Denver. Specific topics COIFFE included: undeliverable ballots in high-population counties, non citizens voter registrations, many issues related to mail-in voting systems including the inability to fully secure the mail-in system and lack of complete chain custody, and how our voting system is not properly audited.
- ◆ EagleAI for Colorado has been up and running since March. The national EagleAI team continues to update and improve their program for use in Colorado. Several volunteers are working with EagleAI/CO to locate deceased voters in different counties throughout Colorado. Dr. Rick Richards has forwarded spreadsheets of voters who have moved (both county-to-county and out-of-state) and an executive committee member of COIFFE will further analyze these spreadsheets.
- ◆ Non-citizen voting has become a growing concern at the national level including groups such as our partners at the Election Integrity Network (EIN). Click [here](#) to watch a video (under 3 minutes) featuring Joe Hoft, a writer at the Gateway Pundit, discussing border crossers somehow being moved to Florida, and once there, applying for various Florida programs, including instructions on how to sign up to vote. In the United States, non-citizens may not vote in Federal elections. If they do vote, it is a crime.

- ◆ True The Vote’s “The 611Project” is designed to empower those grappling with serious questions over non-citizen registrations with comprehensive research and practical action steps to defend the security and integrity of the electoral process in a time of increasing uncertainty. - ◆ Two decades ago, Colorado was a red state. The Epoch Times provides an overview of how Democrats turned Colorado blue. Now Republicans are working to win it back. Read Part 1 [here](#).

VOLUNTEER OPPORTUNITIES

- ◆ There are several, highly significant and diverse volunteer opportunities that we are excited to share with all our members at our next all-volunteers meeting. We need assistance within a number of efforts, including, in part, the following:
 - Voter Rolls, Analysis & Accuracy Improvement
 - Undeliverable Ballot Program
 - Audit Analysis
 - Election Watcher Training
 - Ballot Initiatives

NEXT COIFFE VOLUNTEER MEETING

Monday, May 13th at 6pm via Zoom - an email with Zoom link will be sent soon.

DID YOU KNOW?

- ◆ Jeff O’Donnell (author of Mesa Reports [1](#), [2](#) and [3](#)) has released his documentary “Fingerprints of Fraud” in 6 separate chapters. To watch, click [here](#).
- ◆ We have yet even more information on Google, Dr. Epstein and how Google interferes in our elections. Click [here](#) to read a brief history of Google’s 16 year election interference. In case you missed it (from previous newsletters):
 - In February we introduced you to Dr. Robert Epstein (presentation [here](#)).
 - In March, we encouraged switching from Google to recommended alternatives as we are now aware Google is collecting personal data. We shared how you can “De-Google”. Step 1 is replacing your Gmail & Google Search. Click [here](#) to view alternatives to Gmail, Google Search and more.
