

June 2023 Newsletter

COIFFE News Items

- Team members attended the 2023 Western Conservative Summit to introduce COIFFE as a new Colorado non-profit organization incorporated to educate citizens and monitor Colorado election processes. It was a successful networking event for COIFFE.
- Task Forces are growing as new volunteers join existing efforts to monitor Voter Rolls and define non-partisan election audit procedures. We have recently connected with volunteers from possible new task forces in Mesa, Jefferson, El Paso, Park and Chaffee counties. At the same time, we are working to become more effective and efficient in leveraging volunteer support and their valuable time commitments.

Election Integrity News

- New York Citizens Audit moves forward and works to replicate the same model across more states. Learn more about this group of volunteers at their [website](#). This will grow to become a broader initiative, called the USA Citizens Audit. Their approach is different from the audit approach we are taking here in Colorado. They focus primarily on verification of voter identity, ballot security, voting systems certification and election processes following their state laws. We are focused on developing a professional election audit infrastructure and implementing corporate Generally Accepted Auditing Standards (GAAS) at key points in our election processes.
- The Halderman Voting Security [Report](#) was released in Georgia, and existing vulnerabilities in the state's voting software won't be addressed until after the 2024 election.

Did You Know?

- What is ERIC (Electronic Registration Information Center) and why did it lose another state...Texas? It is important to understand how ERIC does not provide the benefits to state elections that it promises, and why Colorado should consider following suit. Read about it on our [website](#) to learn more.

Upcoming Plans

- We intend to engage with the Association for Mature American Citizens ([AMAC](#)) points of contact for possible support with reaching concerned citizens about election related topics.
