

Brows by Design™ Sculpting & Extensions

The **Brows by Design™ Sculpting & Extensions** technique launched in 2012! It quickly became popular for giving women the “Browmazing” natural look to fill in sparse and missing eyebrows. The Brows by Design™ Sculpting & Extensions technique was unfortunately knocked out of its first place position for creating amazing brow transformations when the Microblading Technique took the industry by storm!

Now that Microblading Artists all over the world are learning, that not only is the Microblading Technique a bit pricey for some peoples budget, it’s simply painful and also not suitable for everyone and not suitable for every skin! There is a list of contraindications that will prohibit the Microblading Technique for some people!

So in that case... what do you do? Do you lose your potential client or do you offer them an alternative method to achieve “Browmazing” Brows! My guess is that you would love to know a technique to fit every skin and budget!

Demand your BROW business to stand out from the rest and be the best by learning an innovative new art and by offering your clients this must have “Browmazing” beauty treatment. Don’t be stuck in the Microblading box!

The **Brows by Design™ Sculpting & Extensions** technique will also allow you to fill in sparse brows, missing brows and also totally recreate your clients’ eyebrows completely for a natural look. In addition, you can easy give your clients brows more fullness and definition that simply cannot be achieved with everyday grooming.

The **Brows by Design™ Sculpting & Extensions** are waterproof and smudge-proof eyebrows, that are created by building on your client's natural eyebrow shape to create voluminous, vivacious brows that have perfect definition and can last on average approximately 2-3 weeks. The final look of the new brow set is that of a permanent make-up look! However the **Brows by Design™ Sculpting & Extensions** are achieved with the non-invasive technique with no numbing, no pain and no high cost!

The **Brows by Design™ Sculpting & Extensions** are truly customized and tailor-made for each person and suitable for both women and men! Treatment as intricate with lots of required details requiring you the artist to be very precise.

- Wake-up with beautiful, full brows...
- Waterproof, smudge-proof brows...
- No make-up or contouring needed...
- No powders, no pencils, no stencils...
- Great for those with naturally good eyebrows but want a fuller look...
- Perfect for those who suffer from partial brow loss...
- Even better for those who suffer with complete brow loss...
- Lasting on average 2 - 3 weeks... (requiring touch-up appointments)...

Our **Brows by Design™ Sculpting & Extensions** training workshop will teach you step by step on how to clean-up brows prior to applying the sculpting treatment with the necessary steps such as tinting, tweezing and shaping the brows! You will learn the art of how to create perfect eyebrow shapes alongside completely learning the new concepts of brow building and sculpting, to improve and emphasize desired brows. The final step in the brow building and sculpting phase involves an intricate procedure of adding natural-like hair to clients’ existing brows to create fullness and more definition. However for the people who have suffered a complete loss of all their own brows, we have developed a unique sculpting technique that is simply “Browmazing”! The treatment will also benefit those who already have naturally good eyebrows or a partial loss but desire more volume and definition.

The Brows by Design Sculpting & Extensions - class cost \$750.00 / Includes Basic Kit for 25 plus clients / One Day Workshop
