

CAPABILITY STATEMENT

Core Competencies

Bucket Defense Solutions devises unique and proprietary solutions that increase the productivity and efficiency of Naval Shipyards, helping deliver warfighting capability on time and with significantly improved reliability.

Differentiators

Naval Military Executive Leadership + Commercial Real Estate Investment Expertise

Combine an insider's understanding of the military's strategic priorities, Naval operational and shipbuilding requirements with the speed, flexibility and efficiency of the private markets. Direct experience with industrial and storage commercial real estate through the full lifecycle of construction, development and operations to service all logistical needs.

Past Performance

Team has experience working with various governmental and private companies:

CNL

KKR

CBRE
