ASX Market Announcements Office
ASX Limited

LATE LODGEMENT OF OUTSTANDING QUARTERLY REPORTS

Investor Centre Limited (**ICU** or the **Company**) (**ASX:ICU**) refers to the automatic suspension of its securities from quotation on the ASX due to the late lodgement of its periodic financial reports.

The Company is pleased to advise that it has today lodged the following outstanding periodic reports with the ASX Markets Announcements Office:

- The Quarterly Activities Report and Appendix 4C for the quarter ended 30 September 2025;
- The Quarterly Activities Report and Appendix 4C for the quarter ended 31 December 2025;
- The Quarterly Activities Report and Appendix 4C for the quarter ended 31 March 2026; and
- The Quarterly Activities Report and Appendix 4C for the quarter ended 30 June 2026.

The delay in lodging the financial reports referred to above (together the **Reports**) occurred while the Company's securities were suspended from trading on the ASX. During this period, the Company's Board faced a number of operational issues and administrative constraints which restricted its ability to prepare and authorise the lodgement of the Reports.

The Board is working through those issues and believes that it now has in place a process to address all outstanding regulatory requirements.

The Company has restructured its governance and operational processes with a view to ensuring all remaining outstanding financial and regulatory requirements are brought up to date, with the ultimate aim of seeking reinstatement of its securities.

This ASX release has been authorised by Jody Elliss, Managing Director.
