ABOUT

Mercury Architects is a young architectural firm established in 2019. Despite its relatively short history, the firm has already gained international recognition and is now headquartered in Auckland, New Zealand. With a team of talented architects and designers, Mercury Architects has rapidly established itself as a prominent player in the realm of architecture. The company's reputation is well-known in the industry due to its unwavering commitment to precision, innovation, and versatility in tackling diverse design challenges.

Our mission is to carefully choose and design living and working spaces that have a significant impact on mental well-being. We have a deep understanding of how surroundings can affect our thoughts and emotions, which is why we focus on creating uplifting spaces. Our goal is to elevate your state of mind and significantly improve your overall quality of life.

SANTOSH SATPATHY

A versatile and accomplished architect with extensive experience in architectural design and project management. As the Co-Founder & Director of Mercury Architects India, and Director of Strategic Planning & Management at Mercury Architecture New Zealand, he plays a pivotal role in leading innovative, cross-continental projects across the commercial, residential, and institutional sectors.

An MIDC Empaneled Architect, he holds academic qualifications in architecture, project management, and business administration, which together support his comprehensive approach to design, leadership, and strategic growth. Santosh also serves as Joint Secretary of the IIA-NMC, contributing actively to the architectural community.

He is also a dedicated mentor and speaker, regularly engaging with aspiring architects and students through educational platforms and industry forums. He's committed to promoting sustainable, thoughtful architecture and nurturing the next generation of design professionals.

AR. Amit Tarte

Amit has been an integral pillar of Mercury Architects since its inception, embodying the firm's vision of combining design excellence with operational precision. As the Senior Architect overseeing all New Zealand projects, he plays a central role in steering the studio's work—managing end-to-end project execution, guiding multidisciplinary teams, and ensuring that every delivery meets the highest professional and creative standards. His leadership extends beyond coordination, fostering an environment of collaboration, innovation, and accountability that elevates the entire design process.

With a Master of Architecture degree from CEPT University, Amit has cultivated a robust foundation in both design thinking and technical rigor. This background allows him to balance the artistic and analytical dimensions of architecture, enabling him to create solutions that are not only visually striking but also deeply functional and contextually relevant. Known for his methodical approach, Amit's architectural documentation is precise, comprehensive, and consistently reflective of the studio's design philosophy.

A passionate advocate of computational design and advanced 3D modeling, Amit leverages technology to expand the boundaries of spatial exploration and project presentation. His ability to integrate cutting-edge tools with creative insight gives clients and stakeholders a vivid, forward-looking experience of architectural possibilities.

Within the Mercury Architects team, Amit is recognized as a steady and trusted leader. His calm presence, clear communication, and solution-oriented mindset inspire confidence, whether navigating complex challenges or mentoring emerging designers. Dependable and forward thinking, he continues to play a vital role in shaping Mercury's portfolio and reinforcing its reputation for quality, innovation, and excellence in architecture.

AR. RADHIKA UTPAT

Ar. Radhika Utpat is an award-winning architect and designer, recognized for her innovative approach and creative vision. A graduate of BN College of Architecture, Pune, where she earned the Best Thesis Award of the Year, she went on to complete her Master's in Architecture from CEPT University. Her professional journey includes two years at Fulcrum Studio, Bangalore, where she worked on high-end architecture and interior design projects. Her talent has been nationally acknowledged, with Architectural Digest India featuring her in its April 2016 edition as one of the "Under 30 Designers to Watch Out For" for her exceptional product design.

DESIGN PHILOSOPHY

We believe in making spaces that are soulful and artistic. Our aim is to bring inspiration & wonder in the everyday space.

We're driven with passion for Design and with a keen attention to detail.

To us, every client is unique. Our vision for space is directed with our engagement and collaboration with our clients to create a space that reflects our client's sensibilities and enriches their lives.

AR. SHRESHTHA HEGDE

Shreshtha has an impressive academic background, combining the creativity of architecture with the strategic mindset of business management.

She began her journey by earning a bachelor's degree in Architecture from Mumbai University, where she developed a strong command over the principles of design, construction, and spatial planning. This foundation gave her not only a technical understanding of the built environment but also the ability to approach projects with innovation and an eye for detail. Through her undergraduate studies, she honed her problem-solving skills, nurtured her design sensibilities, and cultivated an appreciation for the balance between functionality and aesthetics.

Her drive to expand her horizons and add a managerial dimension to her expertise led her to pursue a master's degree in Business Management at ESCP Europe, Paris—one of the world's leading business schools. Here, she acquired advanced knowledge in project management, leadership, and strategic planning, enabling her to bridge the gap between design creativity and business execution. The exposure to a global environment further enhanced her adaptability, cross-cultural communication skills, and ability to lead diverse teams.

By merging her architectural background with business acumen, Shreshtha positions herself uniquely as a professional who can seamlessly transition between creative design thinking and strategic decision-making. This rare combination empowers her to approach challenges with a holistic perspective—balancing visionary ideas with practical implementation, and ensuring that projects are not only aesthetically inspiring but also commercially viable and sustainable.

Services

At Mercury Architects , we believe every space tells a story — and our role is to design, shape, and manage that story with precision and creativity. With expertise in architecture, interiors, and project management, we provide end-to-end solutions that transform ideas into timeless spaces.

Architecture

We design buildings that are modern, functional, and sustainable. Our focus is on blending creativity with practicality to deliver spaces that reflect your lifestyle and purpose.

Interior Designer

From layouts to finishes, we craft interiors that balance aesthetics with comfort. Every detail is carefully chosen to create environments that are both beautiful and functional.

Project Managment Consultation

We manage every stage of your project — planning, coordination, and execution — ensuring timelines, budgets, and quality standards are met without compromise.

TEAM

Mercury Architects rejects the concept of 'boss culture.' We operate as a leadership-driven team, where every voice is heard, respected, and valued. It's a culture that thrives on mutual growth, continuous learning, and a deep sense of purpose. Our team's strength comes from empowering one another to reach our collective potential.

Process

A black and white photograph showing a person's hands and arms as they work on architectural drawings spread out on a wooden table. The person is holding a pencil and appears to be drawing or marking the plans. The drawings include floor plans with various rooms labeled and dimensions. The lighting is soft, creating a focused and creative atmosphere.

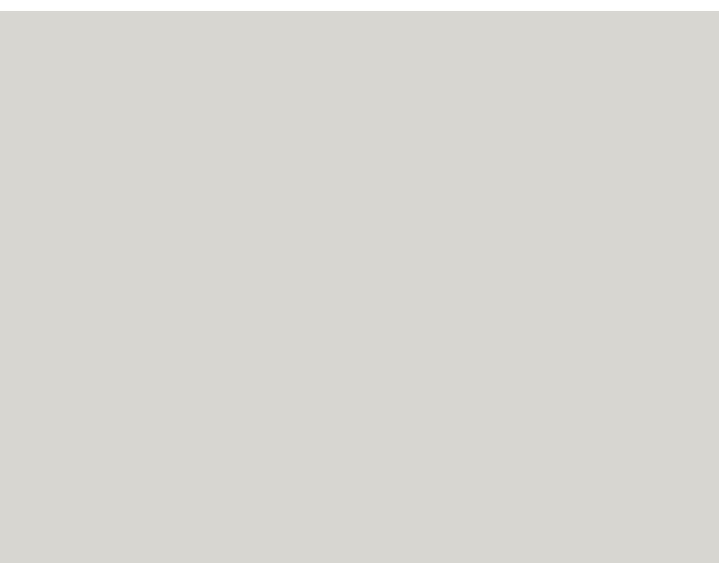

Interior Projects

Project AIR

Area: 1000 sq.ft.
Location: Seawoods, Navi Mumbai

Guided by the family's "less is more" philosophy, the minimalist, airy and highly functional home design embraces soft curves, custom furniture, natural textures, and expanded windows to create spaciousness, warmth, and simplicity.

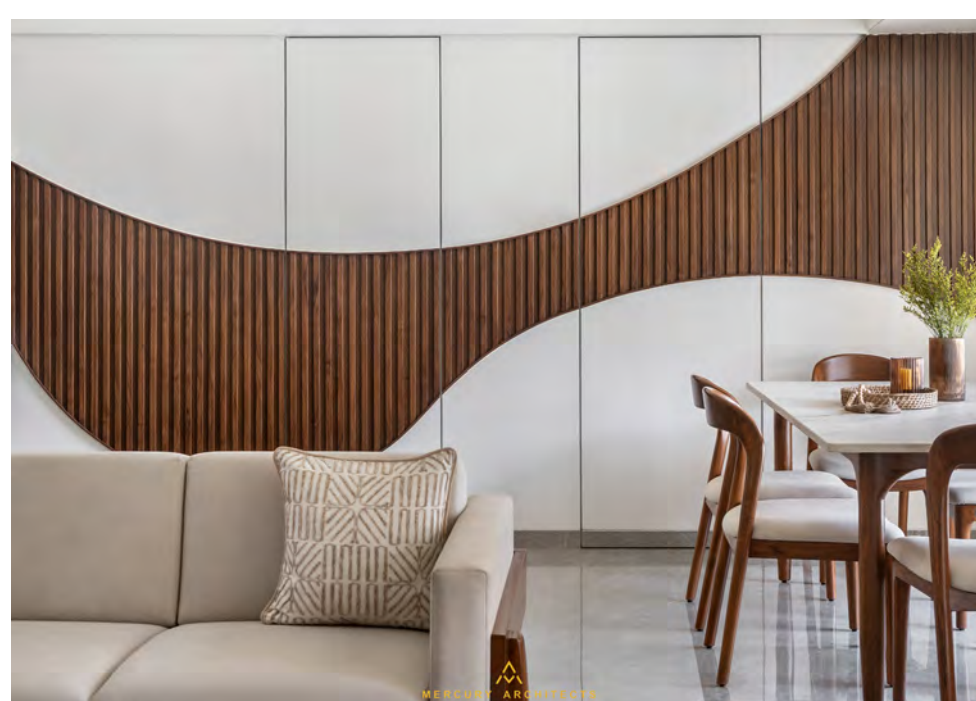

Project Evolve

Area: 1600 sq.ft.
Location: Sanpada, Navi Mumbai

'Evolve' by Mercury Architects merges two flats into a light-filled home for six, blending Mediterranean warmth, custom details, and restrained design to create a cohesive yet flexible canvas for the family's evolving life.

Project White House

Area: 800 sq.ft
Location: CBD Belpaur

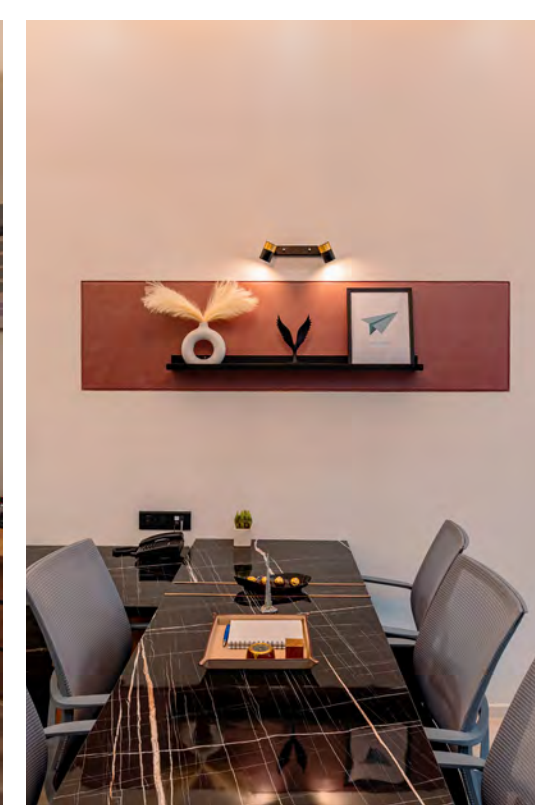

Mercury Architects designed a sleek, modern workspace for White House Solutions, where a refined palette, custom artwork, and glass partitions create a high-end, welcoming office that feels spacious and sophisticated.

Project Manas

Area: 800 sq.ft
Location: CBD Belpaur

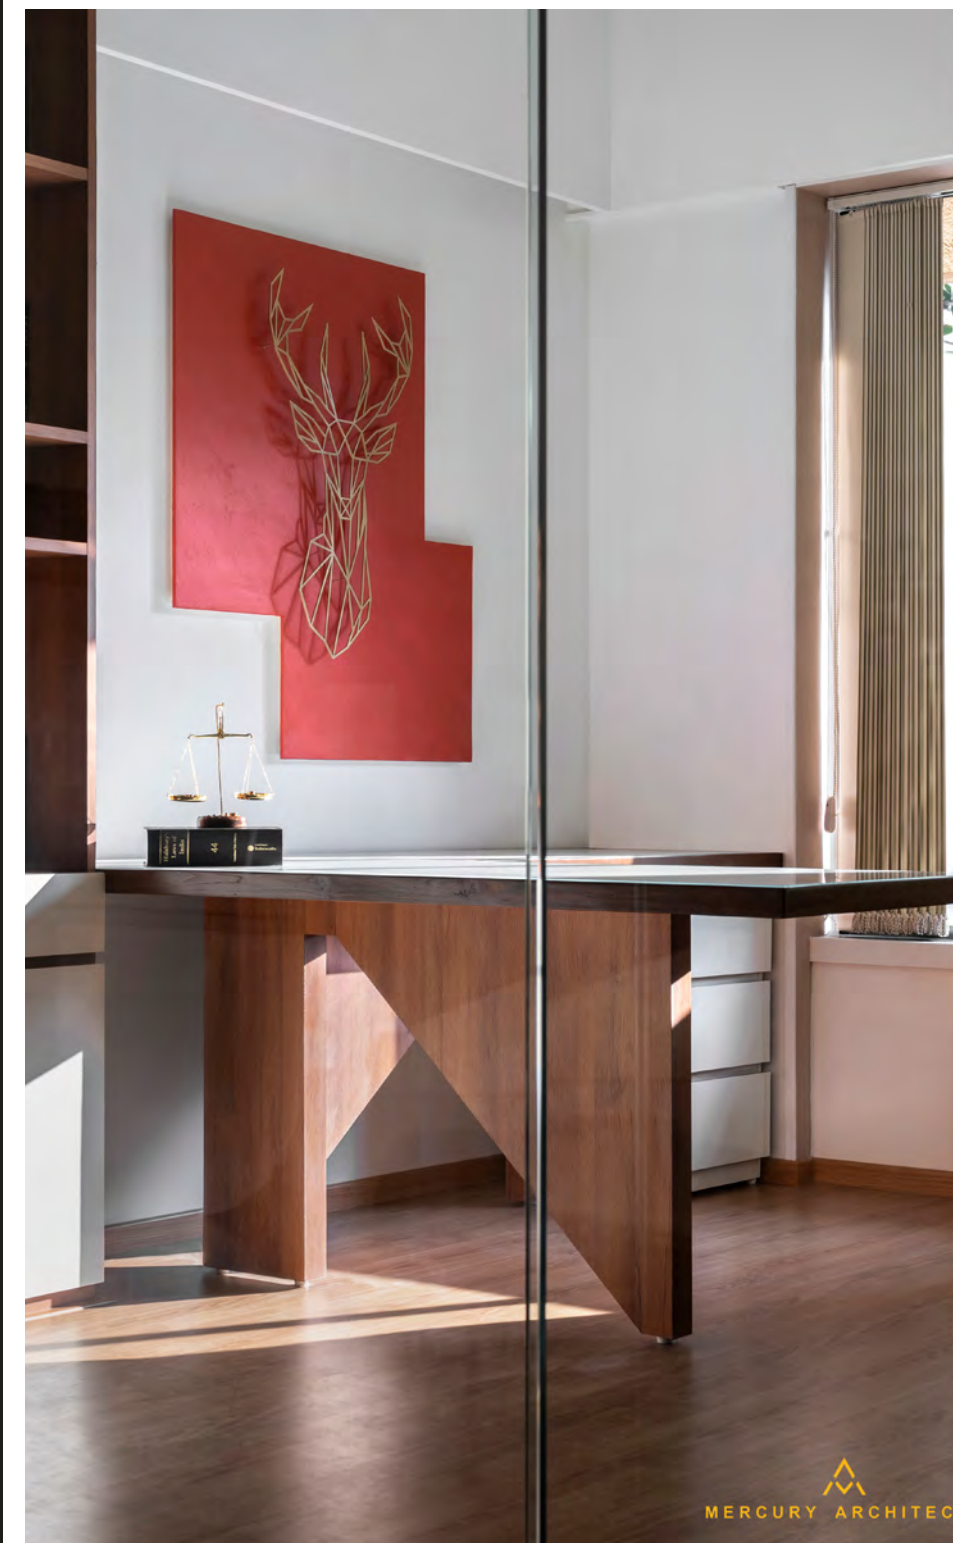

The Manas Group office in CBD Belapur uses a salmon pink, white, and black palette, with a reception wall of fluid curves and lines as the focal point, balancing transparency and modern elegance.

Project Shreeyog

Area: 450 sq.ft
Location: Nariman Point

A compact law firm office in Nariman Point, Mumbai, was transformed into multiple functional and elegant spaces using custom furniture, glass partitions, textured walls, and accent art, balancing privacy, openness, and natural light while reflecting the firm's professional identity.

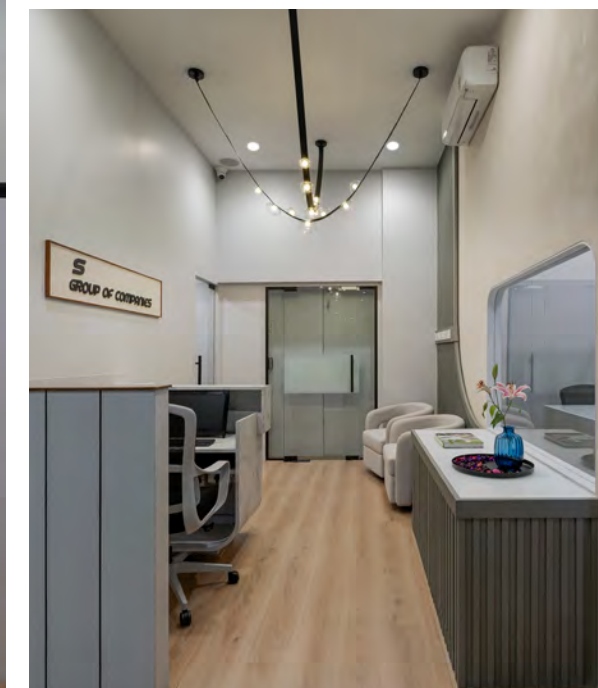

Project Vista

Area: 1600 sq.ft
Location: CBD BELAPUR

A Belapur office merges two units into a compact, light-filled workspace for 20 staff, overcoming space constraints with mezzanine workstations, dual-purpose rooms, and smart partitions, balancing functionality, openness, and elegant design.

Architecture Projects

Project Runway Rise

Area: 3550 sq.m
Location: Auckland,NZ.

Inspired by a long barn form, this modern home features a bold entry, open-plan living, and a deck that embraces the runway as a daily spectacle. Clad in dark brick and fiber cement, it sits like a "black pearl" against the lush green landscape

Office No.10, Raheja Arcade, Sector -11, CBD Belapur,
Navi Mumbai, Maharashtra 400614.
