BEFORE YOU READ FURTHER — ASK YOURSELF THIS

Are you hardworking, capable, skilled... yet unsure if you're walking the right path?

Many people don't fail because of lack of talent. They fail because they chose the wrong direction — often too early, too blindly, or under pressure.

“If you don't decide and plan your life, somebody else will do it for you.”

Why This Workshop Exists

Most students and professionals set goals that are not truly theirs.

They are borrowed from:

- Someone else's success
- Society's expectations
- Family pressure
- Social media highlights

This workshop helps you step back, slow down, and **understand yourself first** — so your goals actually belong to you. At the right age and time, this clarity can **change everything**.

What We Will Work On (No Theory, Only Reality)

- Understanding **what passion really is** (and what it is NOT)
- How passions are **interconnected**
- Choosing the **right passion that sustains you**, not excites you temporarily
- Converting passion into a **profession**
- Choosing the **right department / role** within a profession to maximise your potential

This is not motivation. This is direction.
