COMPANY PROFILE

Infinite Enterprise Solutions is a minority, woman-owned small business headquartered in Sugar Hill, GA. We specialize in Project and Program Management, Data Management, and IT Solutions for both government and private enterprise clients. Our team delivers tailored strategies that integrate innovation, compliance, and efficiency—ensuring mission success and operational excellence.

CORE COMPETENCIES

Experts in:

- • Program & Project Management: Agile, Scrum, and Waterfall leadership for IT and infrastructure portfolios.
- • IT & Data Analytics: Expertise in AI, machine learning, Power BI, and cloud migration.
- • Infrastructure & Energy Systems: Leadership in renewable energy, water reuse, and environmental sustainability.
- • Geospatial & GIS Solutions: Enterprise mapping, spatial analytics, and data visualization for decision support.
- • PMO Governance & Optimization: Standardizing workflows and performance tracking across complex programs.

DIFFERENTIATORS

Established in 2020, leading the way...

- Over 15 years of combined experience in IT, data, and infrastructure program delivery.
- PMP®, CAPM®, and CSM® certified leadership ensuring project quality and compliance.
- Proven success driving digital transformation and agile adoption in public and private sectors.
- Minority, woman-owned small business providing flexible and scalable solutions.
- Expertise bridging federal contracting requirements with private-sector efficiency.
- We have over 10+ years of public health state and federal level experience and government service excellence.
- We have decades of senior-level experience in managing federal government agency and private company programs.

PAST PERFORMANCE

- Select Water Solutions – Directed renewable natural gas and produced water reuse programs using Aquacast™ and Aquaview™.
- GoHealth Urgent Care – Led SharePoint Intranet Phase 2 rollout, Workday integration, and process automation.
- RetailStat – Managed enterprise-wide locational intelligence and rebranding initiatives to improve data visibility.
- Centers for Disease Control and Prevention (CDC) – Oversaw GIS modernization, OneMap branding, and interactive public health data systems.

Let us help you achieve the "Right Solution for Everyday use"!
