### Dine Out Club

June's Dine-Out will be on July 2, 2025 Miller Ale House @4:30p.m.  For those of you who are not familiar with our "Dine-Out" program, we visit an area restaurant on the first Wednesday of each month.  It is a great time to eat out with your friends and for our singles not to eat alone.  Generally, the restaurant will give the center a gift card to their restaurant to be used in one of our many baskets we chance off throughout the year!

# WELCOME!

Welcome to Weston Debbie!

Welcome back to Weston Aletha!

# Reminders

- Be sure to check July calendar for other dates

- Please bring a sweater.

- Our hours of operation are 8 to 4. Monday thru Friday.  We ask if you are using the bus that you have a pick up time no later than 3:15 p.m. so if the buses are running late they will get here before 4:00 p.m.

- If you are running late in the morning, please drop off before 11:00 a.m. so it does not interfere with us serving lunch.

- If you call between the hours of 11.30 a.m. to 12:30 p.m. please leave a message and we will get back to you after lunch.

- When picking up your loved one we ask that you pick them up by 3:45 p.m. so our staff is able to clean up for the next day.

- We also have Depends and diapers for sale for 5 dollars a pack.  If interested, please call the center at 302 328-6425 and talk to Lori.

- We do not supply breakfast we serve snacks at 9:30 a.m. (Breakfast bars, Pop-tarts etc.)

- Lunches – A menu is given at the beginning of each month.  If your loved one cannot eat what is on the menu, please pack something from home.  Peanut Butter and jelly is available for an alternative.

- We would also like to thank Gale for sharing her talents with us each week. Our clients look forward to her visit each week.

# Moon Facts

## What is our moon's real name?

The official name for Earth's moon is simply "the Moon". While other names like "Luna" (Latin) or "Selene" (Greek) are used in different languages or contexts, "the Moon" is the proper name used in English and by scientists in most scientific writings, according to Quora. The use of "Luna" is more common in scientific writing when distinguishing it from other moons.

## This month we celebrate NASA!

It was created on July 29, 1958 when President Eisenhower signed the National Aeronautics and Space Act of 1958, paving the way for moon landings and other exciting space explorations.

The full moon in July is called the "buck moon" because July is normally the month when a buck deer 's new antlers appear.  It is also when game hunting begins.
