# CbGäRDN™

UNLOCKING THE  
POWER OF NATURE

## What is CBGärdn?

With decades of expertise in biochemistry and clinical technologies, along with a results-driven approach and boundless curiosity, CBGärdN strives to push the boundaries of skin care. By integrating innovation and impressive ingredients, like botanical derivatives, we are able to bring you powerful formulas that promote a healthy dermis and restore beautiful skin.

## The benefits of *Nettle Leaf*

Nettle leaf is quickly becoming a trend in personal care. That's because, when prepared properly, this wonder-ingredient is known to soothe and calm inflamed or irritated skin. It contains compounds that ease skin conditions and help reduce the appearance of puffiness, redness and uneven skin texture. This little, yet amazing, plant also contains astringent qualities, meaning it has the ability to dislodge particles and dead skin while purging pores of impurities. It also allows the outer layers of skin to tighten, thus reducing the size of pores and producing an evenly textured and more smooth skin texture.

## Satin Leaf *Collection*

This collection focuses on ultimate skin hydration. As we age, our skin loses the ability to retain moisture and becomes thin and dehydrated, leading to uneven texture and fine lines. The Satin Leaf Collection contains peptides, sodium hyaluronate and a variety of botanical extracts to not only replenish moisture but also help prevent loss of hydration in the skin's surface.

## Essentials *Collection*

Nutrient-rich formulas are a must in achieving luminous and healthy skin. The CB Bio-Restorative Crème and CB Night Renewing Crème are the perfect way to nourish and hydrate your skin day and night. The CB Microexfoliant Peel contains exfoliating ingredients along with Vitamin E to gently rid your skin of impurities. Wash the day away with CB Facial Cleanser to detox and clarify any complexion. Follow up with CB Facial Toner to balance and tone. Finish off with the CB Eye Serum Concentrate and CB Timeless Age-Defying Syringe to firm thin skin and reduce unwanted wrinkles.

## CB Göld *Collection Kit*

The CB Göld Collection targets signs of aging. Formulated with ingredients like nettle leaf extract, organic honey, grape stem cells, and vitamins A, E, and C, this collection nourishes the skin from within. This set protects the skin's natural barrier to fight the effects of UV exposure, environmental stressors, and premature aging. This collection is packed with antioxidants and effective ingredients to delay signs of aging and restore youthful-looking skin.

## CB Göld Thermo-Repair *Collection*

Enjoy a spa-like facial from the comfort of your home. The three-part CB Thermo-Repair Collection features a unique self-heating face mask, along with a serum and cream infused with a powerful blend of vitamins, peptides, and botanical extracts. A re-invigorating trio to noticeably smooth, brighten and tighten after each use.
