

RIO LAGARTOS - LAS COLORADAS LA RUTA DEL FLAMINGO

We will begin the tour in Las Coloradas, exploring the saltworks and its bodies of water, some of them with a striking pink color.

We will venture into the Ría Lagartos nature reserve, a natural jewel of the Yucatán Peninsula. Here, we will enjoy a boat ride through its mangrove-lined canals, where you can observe the different species that inhabit them, including flamingos and crocodiles. You can also experience a Mayan Bath by covering your body with nutrient-rich clay. Afterwards, we will take you to a pristine beach where you can wash off the mud in its crystal-clear waters: the perfect way to end this adventure.

 Average duration 12 hours
