To Chambers County

This letter is in reference to Gary McClure. Mr. McClure has been working with our district since October of '18. Since that time Mr. McClure has assisted in architect and construction-manager-at-risk search for a potential bond project in the district. Mr. McClure's knowledge of guiding the district in what qualities to look for in both firms has been extremely valuable. Mr. McClure is efficient in his time schedules and promptness of the entire district's request.

Glasscock County has used Mr. McClure's Best Value Software program for our process of choosing a CMAR. The program allows one person to score the RFP's rather than a committee. This results in no committee member productivity loss. Glasscock County ISD is extremely please with the program and view it as a solid system of reporting. We would highly recommend the Best Value program for any owner consideration. The Best Value system allowed our district to review and select our own scoring values. Best Value program also provided the district with documents that were required for inclusion in the RFP. One of the most valuable aspect of the program, is it warned our district of bidding fees that were below the CMAR's break-even point. Our district felt very comfortable addressing fee issues with our potential CMAR's because of the program. I would highly recommend the Best Value Program.

Glasscock County would recommend to anyone Gary McClure for construction consulting. Mr. McClure is a straight shooter. He has taught our district valuable knowledge as we move forward in the Bond process. We would hire Mr. McClure again for future projects and use his Best Value Program.

Thank you

Scott Bicknell
Superintendent
Glasscock County ISD
