dba "THRIVE"

## BACKGROUND INFORMATION

SimonStudentsThrive has been a dream of mine which came to fruition eight years ago. I am a certified teacher in 46 states, hold an Undergraduate Degree in Education, and two Master's Degrees. I began this company while teaching in the classroom, noticing that there were many students who were left behind and "lost" and parents who needed help.

Working with students has been my occupational focus. Having taught in the classroom for over 25 years, I have gathered a plethora of experience and knowledge as to what student and parents need. I taught in Westchester County, NY for 13 years, and my last 12 years in the classroom were at Wellington High School, where I earned the prestigious FLORIDA HIGH IMPACT TEACHER AWARD, two years in a row, which is awarded from the Florida Department of Education to teachers who raise student standardized test scores the most!

My purpose in life is to help children and young adults to thrive in a world that has become exceedingly challenging and to help parents to survive school stress and find joy in seeing their child flourish. I want to help to set your child up with necessary school and executive life functioning success skills that are not taught in school, such as planning, task initiation, organization, working memory, self-control, metacognition, attention, flexibility, and perseverance.

SimonStudentsThrive, d.b.a. THRIVE, LLC, has grown due to recommendations from clients, school guidance counselors, and administrators, which is the best means for growth and the best compliment of all!

Please visit our website, [www.simonstudentsthive.com](http://www.simonstudentsthive.com) for more information. In addition to life coaching and advocating, we also have a stellar team of certified subject specific tutors for every grade level and reputable educational psychological testing psychologists.
