Danger--Ultraviolet Radiation

Follow instructions. Avoid overexposure. As with natural sunlight, overexposure can cause burns, eye injury, and allergic reactions. Repeated exposure may cause premature aging of the skin and skin cancer. Wear protective eyewear.

Failure to use protective eyewear, provided the customer by this tanning facility, may result in severe burns or long-term injury to the eyes.

Medications or cosmetics may increase your sensitivity to the ultraviolet radiation. Consult a physician before using sunlamp or tanning equipment if you are using medications or have a history of skin problems or believe yourself to be especially sensitive to sunlight. Abnormal skin sensitivity or burns may be caused by reaction of ultraviolet light to certain: 1) foods, 2) cosmetics, 3) medications, including tranquilizers, diuretics, antibiotics, high blood pressure medicines, and oral contraceptives. A person should not sunbathe before or after exposure to ultraviolet radiation from sunlamps.

If you do not tan in the sun, you are unlikely to tan from use of this product.

Prior to my initial exposure, I was given the opportunity to read the warning above. It was provided to me at AFTER GLOW TANNING LLC. I fully understand, fully accept, and fully assume all risks associated with tanning. By booking my appointment at AFTER GLOW TANNING LLC DBA AFTER GLOW AND AFTER GLOW TANNING & BEAUTY BAR, I acknowledge that I have read and understand the warning statements listed hereon relating to tanning.

Minor Consent By Parent or Legal Guardian

For anyone under the age of 18, a parent/legal guardian must also consent to your use of teeth whitening and spray tans.. As Parent/Guardian of the signed minor, I hereby grant permission for said minor to utilize services offered at this establishment. I have read and understand the warning statements and do hereby agree that the signed minor will follow all aftercare instructions.
