Re: GC Statement on Immunisation

SDA Church

Dear Pr

Thank you for your correspondence and the enquiry made.

At its meeting on 24 September 2024, the Executive at their meeting discussed the 2015 General Conference statement on the issue of immunization, and took the following action:

RESOLVED To approve that we communicate to the Australian Union Conference the following:

In the light of the dynamic and evolving nature of peer-reviewed literature often at odds with itself and the Bible, the Conference Executive asks the Executive to move a motion:

- a) appealing to the General Conference to retract the 2015 Immunisation statement in its entirety*
- b) and refrain from making statements on behalf of the world church that have no basis in Scripture or inspired writings*

This action was tabled at the Executive Committee meeting in November 2024. While the request was well-received, the Executive Committee decided to postpone the decision to write to the General Conference until their meeting in May 2025.

Should you require further information or clarification, please do not hesitate to contact me at

Thank you for your faithful work.

Yours sincerely,

Pr

General Secretary
