Re: Prevailing Wage

This serves notice that the Kankakee River Metropolitan Agency (KRMA), which operates within Kankakee County, is governed, and bound by the same Prevailing Wage Ordinance that binds all other entities doing business within Kankakee County. This ordinance does not preclude any non-union vendor from competing for, or winning bids to perform work for KRMA, it simply states that if work is being performed by non-union workers that could be performed by union workers, the prevailing wage that the union workers would receive for that job will be paid to the non-union workers.

KRMA does not require any records or documentation of your payroll or wages, but in the event that a grievance is filed with the Illinois Department of Labor questioning the wages paid to your workers while under contract with KRMA, you must make such documentation and records available upon request.

I would ask you to acknowledge and comply with this request by signing and dating this document. The original will be held in your file for the protection of all parties involved, KRMA, you the vendor, and the non-union worker.
