AGENDA

KANKAKEE RIVER METROPOLITAN AGENCY MEETING Thursday, September 26, 2024 9:00 AM in KRMA Board Room 1600 Brookmont Blvd., Kankakee, IL 60901

I. Roll Call

II. Public Comment

III. Approval of Board Minutes

A. August 22, 2024 – Regular Board Meeting

IV. Reports

- A. Operations & Maintenance Report
 - 1. Monthly Report (MOR)
- B. Executive Director Report
 - 1. Water, Gas & Electric Use/Cost
 - 2. Hauled in Waste Summary
 - 3. Operations Report
- C. Financial Report
 - 1. Reports
 - 2. Flows Graphs
- D. Communications

V. Old Business

- A. Update on Engineering for Phase 1, Phase 2, Phase 3
 - 1. Projections of Phase 1, Phase 2, and Phase 3 impacts on the rates for members municipalities

VI. New Business

- A. Appointment of KRMA Positions
- B. Information on Tammy Duckworth Meeting
- C. Draft Audit Financial Report FYE April 30, 2024
- D. Resolution for Recognizing Arthur Strother for his Dedicated Service to Kankakee River Metropolitan Agency

VII. <u>Executive Session</u>

A. Personnel & Probable or Imminent Litigation

VIII. Next Meeting

Thursday, October 24, 2024 (9:00 AM in KRMA Boardroom)

KANKAKEE RIVER METROPOLITAN AGENCY

MINUTES

August 22, 2024 – 9:00 A.M 1600 W Brookmont Blvd.

In attendance:

Board of Directors:

Mayor Christopher Curtis, City of Kankakee Mayor Paul Schore, Village of Bourbonnais Mayor Brian Stump, Village of Aroma Park Financial Director Robert Romo, Village of Bradley Alderman Larry Osenga, City of Kankakee Alderman Danita Swanson, City of Kankakee Steven Hunter, Representative, City of Kankakee

Administration:

Dave Tyson, KRMA Executive Director Karen Benson, Smith, Koelling, Dykstra & Ohm, P.C

Attorney:

Neal Smith, Robbins Schwartz

KRMA Staff:

Arthur Strother, Superintendent via GoToMeeting.com Bryan Kennedy, Assistant Superintendent

Other:

Terry Memenga, Director of Public Works, Village of Bourbonnais Dan Small, Engineer, Strand Associates Tara Latz, Financial Director, Village of Bourbonnais Ryan McGinnis, Lab Operation Manager, City of Kankakee Jessica Kinnersley, Director for State Representative Jackie Hass Alexis Brown, Deputy Director for State Representative Jackie Hass

Chairman, Mayor Curtis called the meeting to order.

1. Roll Call

Roll Call was taken. All Board members were present, except for Secretary Brian Stump and Director Larry Osenga.

II. Public Comment

None

III. Approval of Board Minutes August 22, 2024 – Regular Board Meeting

Motion to approve the August 22, 2024, Regular Board Meeting minutes was made by: Dir Romo and seconded by Vice Chairman Schore. All board members that were present voted in favor of except for Secretary Stump and Director Osenga being absent. Motion Carried.

IV. Presentation

A. Strand Associate Presentation for Legislative Officials

Chairman Curtis informed the board that this presentation is the Legislative Officials to understand the capital needs for the KRMA facility along with the assistant to seek some funding. Chairman Curtis ask the Representative from Jackie Hass office to introduce themselves. Introduction was given. Chairman Curtis also informed the board that Senator Patrick Joyce and Senator Elgie Sims was invited, however, had a conflict in scheduling and was not able to attend. He also informed the board that we also had a presentation with Senator Tammy Duckworth from a federal level, advice was given to us. Dan Small with Strand Associate presented his presentation on the Capital Project Maintains a Valuable Regional Asset for KRMA. Dir Hunter asked is there a possibility of a solar component with the KRMA expansion. Dan replied yes, however, there will need to be some discussion put in place for it. Dir Hunter asked about the completion of repairs on the hydro plant. Chairman Curtis stated it should be up by Spring 2025. Exec Dir Tyson added KRMA is operating at almost 80% of our capacity due to changes that are required by our IEPA. To be able to meet the growing needs of your community, when your plant gets to 80% it is time for expansion. KRMA is looking for help to try to subsidize the expense which will keep the cost down on the community. Chairman Curtis reiterated that even without the expansion, Phase 1 of the capital need improvement is something we have to do to keep the plant operating at a good capacity. Vice Chairman Schore expressed his passion for the capital need improvement and expressed the important of the plant operating in good standard for health purposes, sanitation, and protection Kankakee River. Jessic stated they will consult with their contact with local agencies and report back to Jackie Haas.

V. Reports

A. Operations & Maintenance Report

Monthly Report

Art gave his definition of a team and referenced his staff as a team and acknowledged how well they all are doing. He also gave acknowledgement to the Summer Help workers.

Director Jessica Kinnersley and Deputy Director Alexia Brown Representative for Jackie Haas left the meeting.

Dir Romo asked for an update on Rohm Hass. Art replied they are still working out their issues. We have a handle on how to treat their waste. Exec Dir Tyson added he thinks some of the high levels of TSS are coming from the construction from the surrounding areas. As the construction has stopped, the TSS has gone down.

B. Executive Director Report

1. Water, Gas & Electric Use/Cost

Exec. Dir. Dave Tyson presented yearly utility usage. He stated everything seems normal, however, the gas bill is a litter higher due to running the generator.

2. Hauled In Waste Summary

Exec. Dir. Tyson said hauled in waste is down a little, however still over what we budgeted.

3. Operations Report

Exec Dir Dave Tyson also plant operating well. There is some maintenance issue we are working on, also some of our equipment is getting worn out, we are working on replacing it. He also acknowledges Art for 40 years of service.

C. Financial Report

1. Reports

Karen presented the financial statements. Karen stated the Statement of Net Position showing an increase from the prior year. Karen stated that she met with Midland Bank to make sure we are getting the highest interest rate we can receive. Vice Chairman Schore recognize that the long-term liabilities have decrease by approximately \$5 million dollars. Karen stated we are getting to the end of some of the loans, bonds, and some of the IEPA loans are tapering off. Statement of Revenue/Expenses shows hauled in waste for July is above budgeted item.

2. Flows Graphs

None.

D. Communications

Exec Dir Tyson presented a letter from the Illinois Association of Wastewater Agencies for the Second Quarter of 2024 regarding PFAS. Exec Dir Tyson summarized the letter. We are currently not being affected by it, however, wanted to make the board aware.

VI. Old Business

A. Update on Engineering for Phase 1, Phase 2, Phase 3

Dan Small stated Strand Associate is ready to discuss Phase 2 and Phase 3 design. He just wanted to make sure KRMA is still on track to continue to proceed and/or consider. Exec Dir Tyson stated we are planning to have another meeting with staff. Dan Small gave an update about the engineering and design cost thus far.

Projections of Phase 1, Phase 2, and Phase 3 impacts on the rates for the members municipalities
None

VII. New Business

A. Approval of Job Description

Motion to accept the approval of the KRMA Organizational Chart with attached job descriptions that was handed out was made by Dir Swanson and seconded by Dir Romo. Chairman Curtis asked is there any questions and/or comments regarding the KRMA Organizational Chart. All board members that were present voted in favor of except for Secretary Stump and Director Osenga being absent. Motion Carried.

B. Gas Supply Update Extension

Exec Dir Tyson informed the board that we currently have a contract with Five Star, who seek out the best price and we pay them a commission for our gas utility, which ends in August 2025. We are at a historic low rate for gas prices, and they believe they can lock them in another four years. The data show a 4% saving every year for the next four years. There was more discussion regarding the lock in rates.

VIII. Executive Session

Personnel & Probable or Imminent Litigation

Motion to go into Executive Session to discuss Personnel issue under ILCS 120/2(c)(1) was made by Dir Swanson and seconded by Dir Hunter. Motion carried.

Roll call was taken and all board members were present, except for Secretary Stump and Director Osenga being absent. Motion Carried.

The Board went into Executive Session.

Motion to exit the Executive Session was made by Dir. Hunter and seconded by Dir Romo. Motion carried.

Roll call was taken and all board members were present, except for Secretary Stump and Director Osenga being absent. Motion Carried.

Return to Open Session.

Roll call was taken and all board members were present, except for Secretary Stump and Director Osenga being absent. Motion Carried.

With the Board back in open session there was one action taken.

IX. Next Meeting

Next Regular Board Meeting- Thursday, September 26, 2024 (9:00 A.M. at KRMA Board Room)

Motion to Adjourn was made by: Dir Romo and seconded by Vice Chairman Schore. Motion Carried.

Providing Wastewater Treatment to the Kankakee River Valley

Monthly Operations Report

August 2024

KRMA'S AUGUST HIGHLIGHTS:

The Agency team member Shaun Ownbey, Lead O&M specialist, conducted a site tour for project engineers representing the City of Sioux City, Iowa. The site visit in specific was to view the agency screw pumps and screening equipment. Shaun also gave them a tour of the facility.

The senior project engineer responded via email to the excellent job Mr. Ownbey gave with information, knowledge, and experience.

There are continued communication with state officials for assistance with funding for plant upgrade.

The KRMA team members continue to address Operation and Maintenance (O&M) issues to ensure quality effluent to the Kankakee River.

The month of August, the Agency had no violation of the NPDES (National Pollutant Discharge Elimination System) permits.

1.0 WASTEWATER TREATMENT FACILITY OPERATION

Attachment A Details the monthly operational information for the facility.

2.0 INFLUENT FLOW

Table 2.1 Summarizes total flow and average daily flow to the facility from each municipality.

Attachment B Details daily flow rates.

Table 2.1 *Plant Flows*

Municipality	Plant Influent	Kankakee	Bourbonnais	Bradley	Aroma Park
Total Flow (MGD)	340.62	219.87	90.350	29.710	0.897
Daily Average Flow (MGD)	10.99	7.09	2.915	0.958	0.029

3.0 EFFLUENT QUALITY

Table 3.1 Summarizes the effluent quality data.

Table 3.1 *Effluent Quality*

	IEPA Limits	Effluent Average
Biochemical Oxygen Demand (BOD) – Monthly Average	20 mg/l	4 mg/l
Total Suspended Solids (TSS) - Monthly Average	25 mg/l	16 mg/l
РН	6-9 SU	7.13 SU
Chlorine Residual	0.05 mg/l	0.018mg/l
Fecal Coliform	400/100 ml	21/100ml

ODOR ISSUES:

- There was no odor complaint registered at the KRMA facility in August.
- There were no odor complaints registered at the East Gate site in August.

4.0 PERSONNEL

The Agency would like to congratulate these KRMA employees on their August work anniversaries.

Jack Renchen, Lead O & M Operator Specialist, 19 years

Alexander Bowser, O & M Operator Specialist, 3 years

Thank you all for being such a valuable and loyal member of our team. Your knowledge, hard work, and dedication is greatly appreciated.

The Agency would like to say "HAPPY BIRTHDAY" to all the employees with birthdays in August.

Employees continue to follow the COVID-19 Warning Signs and Safety Tips. One of the best ways to help keep workers healthy is to stay home except for necessary outings, and when going out for the necessities, steps should be taken to minimize the risk of spreading illness.

5.0 MAINTENANCE AND REPAIR

Number of Work Orders Closed for the Month: 927

Hours of Scheduled Work Orders Performed: 530.31

6.0 SLUDGE HANDLING

Start Date: 08/01/2024 End Date: 08/31/2024

Gallons of sludge produced and sent to thickening: 2,497,372.00

Gallons of sludge put into storage after thickening: 906,000.00

Sludge removed from the plant for land application: 0.00

Sludge remaining in storage: 5,076,000.00

7.0 WATER USAGE

AUGUST 2024 (31 DAYS): 50,799 CU FT= 380,000 GALS. = \$3,344.84

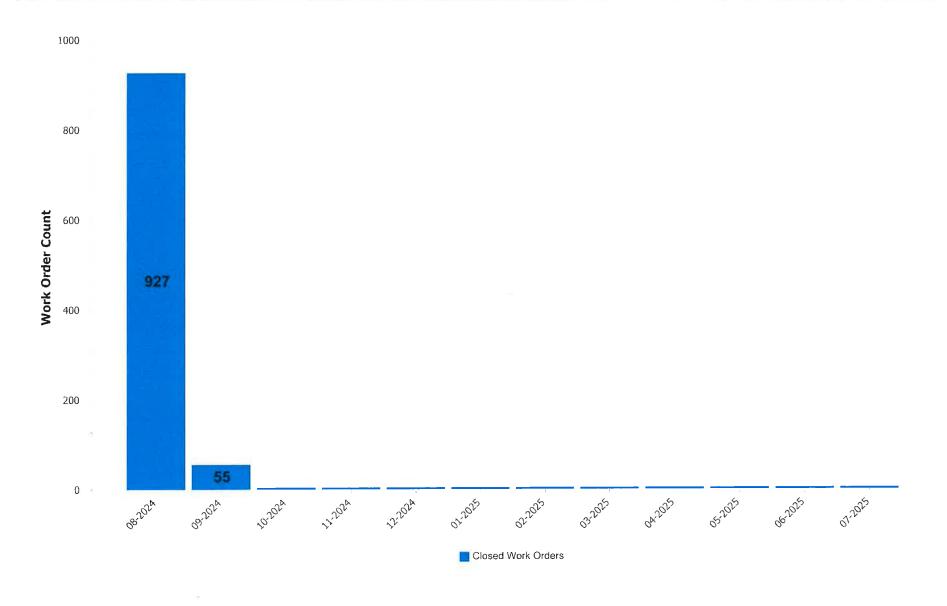

NUMBER OF DAYS IN THE BILLING CYCLE: 31

Work Orders Closed By Month

1600 West Brookmont Blvd. Kankakee, IL 60901

Phone: 815-933-0444 Fax: 815-933-0104

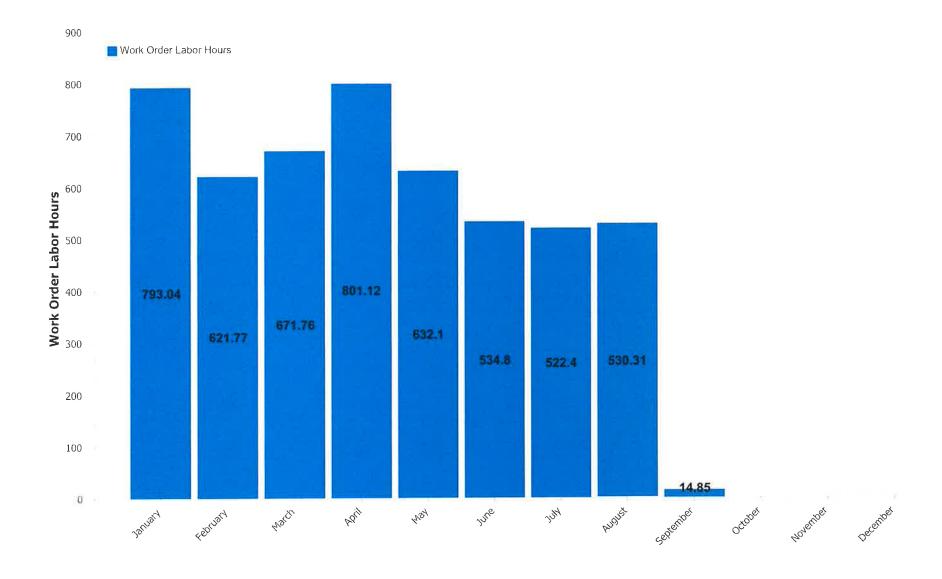

Work Order Labor Hours by Month

1600 West Brookmont Blvd. Kankakee, IL 60901

Phone: 815-933-0444 Fax: 815-933-0104

IL Covid Region	7				

SARS-CoV-2 LEVELS IN WASTEWATER

Wastewater is analyzed using digital PCR (dPCR) to determine the concentration of the SARS-CoV-2 virus in a sample. The nucleocapsid protein (N) gene of the virus is targeted in the assay, and results are reported in gene copies per liter of starting wastewater.

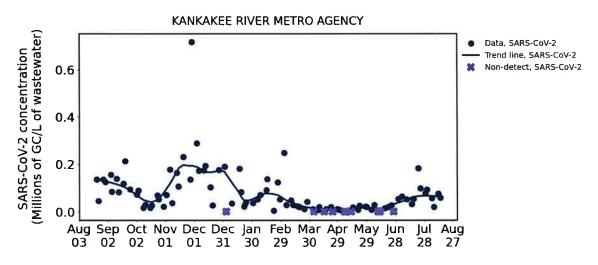

Figure 1. Time series plot of SARS-CoV-2 viral concentrations in millions of gene copies per liter (GC/L) of wastewater. Historical data can be found on the IWSS dashboard, link above.

SARS-CoV-2 SAMPLING RESULTS - LAST 8 SAMPLES

Date	SARS-CoV-2 (GC/L)				
2024-08-14	59,025				
2024-08-12	75,975				
2024-08-07	19,875				
2024-08-05	57,825				
2024-07-31	93,300				

INFLUENZA A/B LEVELS IN WASTEWATER

Wastewater is analyzed using digital PCR (dPCR) to determine the concentration of influenza A and influenza B viruses in a sample. Results are reported in gene copies per liter of starting wastewater.

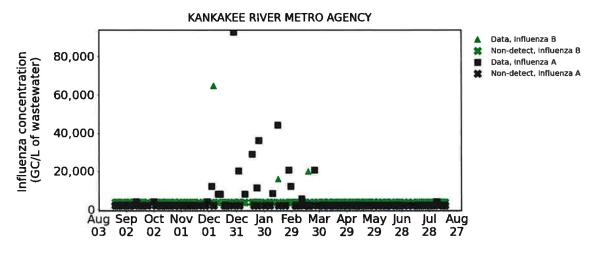

Figure 3. Time series plot of Influenza A/B viral concentrations in gene copies per liter (GC/L) of wastewater. Historical data can be found on the IWSS dashboard, link above.

Guide to Interpreting Data on SARS-CoV-2, Influenza, & Respiratory Syncytial Virus (RSV) Gene Copies in Wastewater Samples

What do the results mean?

There are several factors to consider when interpreting viral data in wastewater. The rate, magnitude, and duration of shedding may vary from one person to another and from virus to virus, thus how or even whether it is possible to translate viral levels in wastewater into precise community health metrics is an open scientific question. It is only appropriate to monitor and observe the trends of viral gene copies detected in a community over time. The data presented in tables, graphs, and trend assessments show the concentration of RNA copies in the wastewater area from the community where the wastewater was collected. A significant increase in viral gene copies over time is an indicator that cases may be increasing in the community. Wastewater data should not be interpreted in isolation but rather considered alongside other public health metrics.

What does the number that is reported on a sample day mean?

It is a measure of how many gene copies are present in a sample, typically reported as gene copies per liter of wastewater (GC/L). Samples are typically obtained from municipal wastewater treatment plants and reflect inputs of viral material shed by the community served by the treatment plant. This number does not indicate gene copies per person or population.

How are the gene copies measured in the wastewater?

Wastewater samples are first processed to concentrate and isolate genetic material (RNA) that is present in the sample. RNA sequences specific to SARS-CoV-2, influenza A & B, and RSV are then detected and quantified using a molecular biology tool called digital polymerase chain reaction (dPCR). During dPCR, a targeted segment of the RNA is converted to DNA and then amplified (copied many times) so it can be detected by laboratory instruments. Specific methods for sample processing and PCR-based quantification differ among wastewater monitoring projects and analytical laboratories.

What does it mean if a data point for a sample is 0 or a non-detect?

A non-detect means that the amount of SARS-CoV-2, influenza, or RSV RNA in the wastewater sample is below the level that can be reliably detected by the quantification methods used in a given laboratory. A determination of non-detect does not necessarily mean that no viral RNA is present in the sample or in the system — rather that the levels are low enough that they cannot be reliably determined. In some cases, other components of wastewater may interfere with individual measurements, leading to an incorrect non-detection similar to false negatives that can occur from at-home and clinical testing. A non-detect does not necessarily mean that there are no infected individuals within the associated community.

What is the viral gene copy trend line?

The trend line is calculated using Locally Weighted Scatterplot Smoothing (LOWESS), a local regression analysis. It allows us to see the change in trend over time by fitting a curve to the data. This method is useful because it reduces the influence of outliers, and wastewater data can be highly variable. LOWESS is a more complex extension of the moving average.

associated with different variants. We then calculate the percentage of each variant present in the sample. This plot summarize the variant detections; lineages are displayed, as there are often many variants detected that are in the same lineage.

What do the results mean?

The SARS-CoV-2 variants identified in a particular plant's wastewater can provide insight into the variants circulating in the population that the plant serves. This information can be useful, as there tend to be fewer clinical sequences, and those might only reflect a small proportion of the community feeling sick enough to pursue testing. The wastewater samples passively capture the virus shed in wastewater from the community where the wastewater was collected, not just those who are symptomatic. Wastewater data is not interpreted in isolation but rather considered alongside other public health metrics.

Does the number or type of lineages tell us how many people are sick?

We cannot tell how many people are sick from the lineages observed in the wastewater. We can only see relative proportions of the variants that are present in the community served by the wastewater treatment plant. We do pay attention to specific mutations that have been identified as having clinical implications (e.g., for effectiveness of medications or disease severity).

Can I compare the lineages in a sample from site to site?

Yes. We often detect variants in a particular plant first, and then see the relative abundance change over time, with certain lineages becoming more prevalent across the state from plant to plant. We compare these detections to sequence data from across the United States and the world.

Why are the dates of the sequencing data not as current as the gene copies data?

Sequencing results are available about two weeks after sample collection. This is because the quantification of SARS-CoV-2 levels by dPCR happens first, and then genetic material (RNA) is sent for sequencing. Additionally, samples then take multiple days to run on the sequencer and computational processing of sequences takes additional time before results are available.

Why do the lineages in the legend change periodically?

The lineages shown in the sequencing plot of this report are in alignment with the CDC's national genomic surveillance system. As the SARS-CoV-2 virus mutates, new variants emerge. This means there are regularly new variants that contribute to the spread of COVID-19. Some variants will disappear while others will continue to spread and even replace others as the dominant variant. These monthly reports reflect those changes as we continue to monitor for emerging variants of concern.

COMPANY: KRMA

CITY: BOURBONNAIS/New

FLOW METER MODEL: Isco Laser Flow

INFLUENT September 13, 2024

PRIMARY DEVICE: 36" PIPE

FLOW: 0-21.36 MGD

MEASURING DEVICE:

CHECK POINTS:

LEVEL? YES
FREE FLOWING? Yes
TURBULENCE? NO
BLOCKAGE? NO
SURFACE BUILD-UP? None
HEAD MEASURING DEVICE MOUNTED PROPERLY? Yes
BLOCKAGE IN HEAD MEASURING DEVICE? NO
IS FLOW METER PROGRAMMED CORRECTLY? YES

CALIBRATION:

NOTE: THE ZERO POINT FOR MEASURING MUST BE LEVEL WITH THE WEIR CREST OR FLUME ZERO POINT:

A) IF POSSIBLE, CUT-OFF FLOW & SET LEVEL TO 0.000FT

LEVEL BEFORE:

LEVEL AFTER:

B) IF FLOW CANNOT BE CUT-OFF, ADJUST LEVEL ON METER TO MEASURED POINT:

LEVEL BEFORE: Target level 13.0" As found 13.250"

LEVEL AFTER: 13.02"

C) Actual level 10.700" 2.29 MGD

LEVEL FLOW CONVERSION CHECK:

WITH FLOW THRU PRIMARY DEVICE, CHECK LEVEL TO FLOW CONVERSION WITH HANDBOOK OR PRIMARY DEVICE DATA SHEET: YES/OK

TOTALIZER CHECK:

WITH FLOW GOING THRU PRIMARY DEVICE, VERIFY THAT TOTAL FLOW IS INTEGRATING PROPERLY USING TIMED RATE METHOD: YES/OK

INDEPENDENT AUDITOR'S REPORT

Members of the Board of Directors Kankakee River Metropolitan Agency Kankakee, Illinois

Opinions

We have audited the accompanying financial statements of the Kankakee River Metropolitan Agency (the Agency), as of and for the year ended April 30, 2024, and the related notes to financial statements, which collectively comprise the Agency's basic financial statements as listed in the table of contents.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the Kankakee River Metropolitan Agency, as of April 30, 2024, and the respective changes in its financial position and cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under these standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Agency and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Prior Period Financial Statements

The basic financial statements of the Agency as of April 30, 2023, were audited by Sikich LLP, whose report dated September 21, 2023, expressed an unmodified opinion on those basic financial statements. Effective as of April 30, 2024, Sikich LLP reorganized and transferred its attest practice to Sikich CPA LLC, a Virginia limited liability company. In the opinion of Sikich CPA LLC, the summarized comparative information presented herein as of and for the year ended April 30, 2023 is consistent, in all material respects, with the audited basic financial statements from which it has been derived.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Agency's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing
 an opinion on the effectiveness of the Agency's internal control. Accordingly, no such
 opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Agency's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Agency's basic financial statements. The supplemental data is presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplemental data is the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements.

The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental data is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Naperville, Illinois REPORT DATE

GENERAL PURPOSE EXTERNAL FINANCIAL STATEMENTS

Kankakee River Metropolitan Agency For Discussion Purposes Only

Preliminary and Tentative

Management's Discussion and Analysis For the Years Ended April 30, 2024 and 2023

To the Board of Directors of Kankakee River Metropolitan Agency Kankakee, Illinois

As management of the Kankakee River Metropolitan Agency (Agency), we offer readers of our financial statements this narrative and overview and analysis of the financial activities of the Agency for the fiscal years ended April 30, 2024 and 2023.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Agency's basic financial statements. Since the Agency is engaged only in business-type activities, its basic financial statements are comprised of only two components: 1) enterprise fund financial statements and 2) notes to the financial statements. This report contains other required supplementary information in addition to the basic financial statements themselves.

Enterprise fund financial statements. The enterprise fund financial statements are designed to provide readers with a broad overview of the Agency's finances, in a manner similar to a privatesector business.

The statement of net position presents information on the Agency's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial situation of the Agency is improving or deteriorating.

The statement of revenues, expenses, and changes in net position presents information showing how the Agency's net position changed during the fiscal years presented. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods. Budgetary information is shown for the purposes of additional analysis.

The basic enterprise fund financial statements can be found on pages 4 through 8 of this report.

Notes to financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the financial statements. The notes to the financial statements can be found on pages 9 through 22 of this report.

Kankakee River Metropolitan Agency For Discussion Purposes Only

Preliminary and Tentative

Management's Discussion and Analysis For the Years Ended April 30, 2024 and 2023

Financial Highlights

- · The assets and deferred outflows of resources of the Agency exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$23,917,508, creating a positive balance in net position. Net position is made up of \$14,238,361 which is invested in capital assets, net of related debt; \$4,768,375 which is restricted by the bond indenture; and \$4,910,772 which is unrestricted net assets.
- The Agency's total net position increased by \$3,482,060, which is simply a result of current operating revenues exceeding current expenses. An increase in net position was anticipated during the budgeting process.
- The Agency's total liabilities decreased by \$4,982,022 during the current fiscal year. This decrease is primarily related to the pay down of long-term debt obligations payable.

Financial Analysis

Over time, net position may serve as a useful indicator of an Agency's financial situation. In the case of this Agency, assets and deferred outflows exceeded liabilities by \$23,917,508 at the close of the most recent fiscal year.

The largest asset category, other than cash and capital assets, is the restricted cash accounts of \$4,768,375 (6.8%).

By far, the largest portion of the Agency's total assets is its investment in capital assets at 82.3%. During the current fiscal year, there were asset additions of \$94,316. The Agency uses these capital assets to provide services to its customers; consequently, these assets are not available for future spending.

The Agency's liabilities were primarily initiated to acquire capital assets. This outstanding debt, comprised of the current portion of long-term debt, bond payable (net of unamortized premiums). and the six IEPA loans, totals \$43,753,264 (94.0% of total liabilities). Although the Agency's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, primarily operations, since the capital assets themselves cannot be used to pay these liabilities.

As a result of the partial debt defeasance in prior years, the Agency reported a deferred inflow of resources for unearned participant revenues from the Village of Bourbonnais of \$1,796,158. The participant revenues include each participant's share of debt service payments paid during the fiscal year. When the Village of Bourbonnais sold its portion of the wastewater collection system, it transferred money to an irrevocable trust held by an escrow agent to pay the Village of Bourbonnais' portion of future debt service payments. The Agency elected to report the Village of Bourbonnais' portion of future debt service as unearned revenue that will be recognized as participant revenue in future years when it is released from escrow to pay the Village of Bourbonnais' portion of debt service payments as they become due.

The Agency has invested significantly in capital assets to improve the operating effectiveness and efficiency of the facility in the past five years.

Preliminary and Tentative

Kankakee River Metropolitan Agency For Discussion Purposes Only

Management's Discussion and Analysis For the Years Ended April 30, 2024 and 2023

Capital Asset and Debt Administration

Capital Assets - The Agency's capital assets as of April 30, 2024 and 2023 totaled \$57,790,545 and \$60,696,399 (net of accumulated depreciation), respectively. Net capital assets changed during the past year by a combination of capital asset purchases offset by depreciation expense. Below is a comparison of the items that make up capital assets as of April 30.

	<u>2024</u>	<u>2023</u>
Land Office equipment	\$ 291,080 685,123	\$ 291,080 675,230
Transportation equipment	363,935	363,935
Treatment plant equipment	87,377,725	87,293,302
Buildings	12,911,314	12,911,314
Land improvements	1,458,966	1,458,966
Less accumulated depreciation	(45,297,598)	(42,297,428)
Total capital assets	<u>\$57,790,545</u>	<u>\$60,696,399</u>

Major capital asset activity for the past fiscal year included:

2024 Projects:

Office equipment	\$ 9,893
Treatment plant equipment	\$ 84,423

More detailed information of the Agency's capital assets is presented in Notes 1 and 3 to the financial statements.

Long-term Debt - At the end of the current fiscal year, the Agency had \$43,753,264 in bonds and notes outstanding versus \$48,300,428 in the prior year. The decrease of \$4,547,164 represents a principal reduction related to the partial bond defeasance and principal repayments made on long-term debt by the Agency.

y Preliminary and Tentative For Discussion Purposes Only

Kankakee River Metropolitan Agency

Management's Discussion and Analysis For the Years Ended April 30, 2024 and 2023

Capital Asset and Debt Administration (continued)

Long-Term Debt Outstanding:

	2024	2023	<u>Increase/</u> (Decrease)
IEPA Loan #1	\$ 1,044,874	\$ 1,450,047	\$ (405,173)
IEPA Loan #2	5,973,044	6,561,699	(588,655)

IEPA Loan #4	1,091,195	1,176,085	(84,890)
IEPA Loan #5	10,856,574	11,786,637	(930,063)
IEPA Loan #6	12,131,695	13,034,078	(902,383)
Revenue Bonds, net	<u>3,791,216</u>	<u>4,684,534</u>	(893,318)
Total Debt	43,753,264	48,300,428	(4,547,164)
Less current portion	(4,556,337)	(4,448,846)	(107,491)
Total long-term debt	\$39,196,927	\$43,851,582	\$(4,654,655)

The Agency has a Revenue Bond (Series 2016) outstanding with various debt service payments required through 2028.

The Agency also currently has six loans outstanding with the Illinois Environmental Protection Agency (IEPA). The first Loan #1 was entered into to perform several equipment upgrades for odor control and improved sludge handling in 2004. This loan has been fully drawn upon and is currently in repayment. IEPA Loans #2 and #3 were entered into to update several other equipment systems including the existing SCADA system. These loans have been fully drawn upon and are currently in repayment. IEPA Loans #4, #5, and #6 were entered into to complete capital improvements, such as replacing the anaerobic digestion system, upgrading the activated sludge system, and improving wet weather facilities. These loans have been fully drawn upon and are currently in repayment.

For balances and repayment information, see the chart above and Note 6 in the notes to the financial statements.

Kankakee River Metropolitan Agency For Discussion Purposes Only

Preliminary and Tentative

Management's Discussion and Analysis For the Years Ended April 30, 2024 and 2023

Review of Operations

Operating Revenues - Revenues of the Agency are primarily from the following four participating municipalities: City of Kankakee, Village of Bradley, Village of Bourbonnais, and the Village of Aroma Park. The revenues from these participants are adjusted at the end of the fiscal year to match the total of the expenditures plus the requirements of the debt ordinances. The allocation of the revenues is a function of the relative percentages of use in hydraulic flows and allocations of debt and ownership. See Note 4 for further discussion of the changes in these relative percentages.

Total Operating and Non-operating Expenses - Expenses decreased during 2024 as compared to 2023, primarily due to a decrease in sludge removal, professional fees, and interest expense. Overall, operating and non-operating expenses decreased by \$181,395 or 1,71% during fiscal year 2023.

Capital Program

The Agency has continued to improve the treatment facilities through replacement and upgrading the original equipment. The funding for these projects has come primarily from IEPA loans.

Requests for Information

This financial report is designed to provide a general overview of the Agency's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the office of the Kankakee River Metropolitan Agency at 1600 W. Brookmont Boulevard, Kankakee, IL 60901.

KANKAKEE RIVER METROPOLITAN AGENCY For Discussion Purposes Only KANKAKEE, ILLINOIS

NOTES TO FINANCIAL STATEMENTS

April 30, 2024 and 2023

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES 1.

The Kankakee River Metropolitan Agency, Kankakee, Illinois (the Agency) is a municipal corporation governed by an appointed board. Pursuant to an intergovernmental agreement dated July 20, 1988 and amended April 30, 1995, the City of Kankakee and the Villages of Bradley, Bourbonnais, and Aroma Park agreed to be jointly involved in the establishment, operation and utilization of the Regional Wastewater Treatment Facility, a wastewater treatment plant located in the City of Kankakee.

Effective May 1, 1996, pursuant to a Municipal Joint Sewage Treatment Agency Intergovernmental Agreement, the City of Kankakee and the Villages of Aroma Park, Bourbonnais, and Bradley agreed to the establishment of an independent agency with authority to operate the facility, raise revenues, and exercise other powers as necessary. The independent agency created was the Kankakee River Metropolitan Agency.

The financial statements of the Agency have been prepared in accordance with accounting principles generally accepted in the United States of America, as applied to government units (hereinafter referred to as generally accepted accounting principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Agency's accounting policies are described below.

Reporting Entity a.

The Agency is considered to be a special purpose government entity engaged only in business-type activities and follows the reporting model prescribed by GASB for such entities. These financial statements include all functions, programs, and activities under the control of the Board of Directors of the Agency. The agency is governed by a seven-member board, including four persons appointed by the Mayor of the City of Kankakee and one person appointed by the Mayor of each of the Villages.

As required by GAAP, these financial statements present the net position, results of operations, and cash flows of the Agency and any component units. The criteria used to determine if a legally separate organization's financial statements should be included and the manner in which they should be displayed center on the nature of financial accountability. Among factors determining this financial accountability include the degree to which the governing body is controlled by the Agency as manifested by the ability to appoint a majority of its voting board, approval of its budget, the degree to which it provides a financial benefit or burden to the Agency, or the extent to which it is fiscally dependent. No component units were deemed to be present for the fiscal years ended April 30, 2024 and 2023.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

b. Fund Accounting

Governmental resources are allocated to and accounted for in individual funds based on the purposes for which they are to be spent and the means by which spending activities are controlled. The Agency reports a single enterprise fund.

Proprietary Funds

Enterprise funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the Agency is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or (b) where the Agency has decided that periodic determination of revenues earned, expenses incurred, and net income or loss is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

c. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operation of these funds are included on the statement of net position. Proprietary funds operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in total net position. Operating revenues and expenses are directly attributable to the operation of the proprietary funds. Non-operating revenue/expenses are incidental to the operations of these funds.

The accrual basis of accounting is utilized by proprietary funds. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

The Agency may report deferred revenue and unearned revenue on its financial statements. Deferred revenues arise when a potential revenue does not meet both the measurable and available or earned criteria for recognition in the current period. Unearned revenues arise when resource are received by the Agency before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the Agency has a legal claim to resources, the deferred inflow for deferred revenue or the liability for unearned revenue is removed from the financial statements and revenue is recognized.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d. Cash and Cash Equivalents

For purposes of the statements of cash flows, the District considers all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash equivalents.

e. Investments

Investments with a maturity date greater than one year from the date of purchase are recorded at fair value. Investments with a maturity date of less than one year from the date of purchase are recorded at amortized cost. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

f. Accounts Receivable

Participant and customer receivables are recorded as receivables and revenues at their original invoice amount. Management has determined no allowance for uncollectible accounts necessary as of April 30, 2024 and 2023.

g. Prepaid Expenses

Payments made to vendors for services that will benefit periods beyond the date of this report are recorded as prepaid expenses.

h. Capital Assets

Capital assets are stated at historical cost or estimated historical cost. Donated capital assets are stated at acquisition value. Major outlays for capital assets and improvements are capitalized as projects are constructed. Land and construction in progress are not depreciated. Depreciation for other capital assets is computed by the straight-line method over estimated useful lives as follows:

Class	Useful Life in Years
Office equipment	5-7 years
Computer software	3-7 years
Transportation equipment	5-6 years
Treatment plant and equipment	5-50 years

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

i. Restricted Cash

The restricted assets include bank accounts created according to the terms of the Revenue Bond that are restricted by the bond covenants. Such assets are restricted to the purposes and covenants specified in the Revenue Bond.

j. Unamortized Bond Discounts, Bond Premiums, and Loss on Refundings

Bond discounts and bond premiums, if any, are deferred and amortized over the term of the bonds using the straight-line method. Bond discounts are presented as a reduction of the face amount of bonds payable; bond premiums are presented as an addition to the face amount of bonds payable. Bond issuance costs are expensed when incurred.

k. Compensated Absences

Accrued compensated absences include earned but unused vacation and sick leave days valued at the current rate of pay. Vested sick leave is limited to 60 days.

1. Net Position

Restricted net position represents amounts required to be segregated by bond ordinance provisions. None of the net position is restricted as a result of enabling legislation adopted by the Agency. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Net investment in capital assets represents the net book value of capital assets less outstanding long-term debt principal issued to construct or acquire capital assets.

m. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

n. Accounting Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, deferred inflows of resources, disclosure of contingent assets and liabilities at the date of the financial statement, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. DEPOSITS AND INVESTMENTS

The Agency's investment policy authorizes the Agency to invest in all investments allowed by Illinois Compiled Statutes. These include deposits/investments in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States Government or agreements to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services, and The Illinois Funds (created by the Illinois State Legislature under the control of the State Comptroller that maintains a \$1 per share value which is equal to the participants fair value).

a. Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the Agency's deposits may not be returned to it. The Agency's investment policy allows for the pledging of collateral for all bank balances in excess of federal depository insurance, with collateral held by a third party under a trust agreement or safekeeping agreement. As of April 30, 2024 and 2023, the Agency had no deposits that were uninsured or uncollateralized.

b. Investments

The Agency categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. The Agency held no investments subject to fair value measurement at April 30, 2024 or 2023.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Agency does not have an investment policy specifically addressing interest rate risk.

NOTES TO FINANCIAL STATEMENTS (Continued)

2. DEPOSITS AND INVESTMENTS (Continued)

b. Investments (Continued)

Credit risk is the risk that the issuer of a debt security will not pay its par value upon maturity. The Agency does not have an investment policy specifically addressing credit rate risk.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Agency will not be able to recover the value of its investments that are in possession of an outside party. The Agency does not have an investment policy specifically addressing custodial credit rate risk.

Concentration of credit risk is the risk that the Agency has a high percentage of its investments invested in one type of investment. The Agency does not have an investment policy specifically addressing concentration of credit rate risk.

3. CAPITAL ASSETS

A summary of changes in capital assets and accumulated depreciation as of April 30, 2024 and 2023 are as follows:

4. RELATED PARTY

The Agency is directed by an intergovernmental agreement dated May 1, 1996. This agreement stipulates that the City of Kankakee, the Villages of Aroma Park, Bourbonnais and, Bradley will provide for the joint and cooperative operation, use, and maintenance of the wastewater treatment system that serves these four communities. The Agency acquired ownership of the Regional Wastewater Treatment Facility (RWTF) from the City of Kankakee on April 22, 1999. The acquisition was funded by the issuance of revenue bonds.

NOTES TO FINANCIAL STATEMENTS (Continued)

4. RELATED PARTY (Continued)

The initial capacity ownership was established during the design and construction of the wastewater treatment plant as follows (flows are stated as million gallons per day, MGD):

	MGD	Percent
City of Kankakee Village of Bourbonnais Village of Bradley	17.60 3.40	70.68% 13.66%
Village of Bradley Village of Aroma Park	3.80	15.26%
TOTAL	24.90	100.00%

At various dates prior to May 1, 2005, the Village of Bourbonnais purchased a total of 4 MGD of capacity rights from the City of Kankakee. On May 1, 2005, the Village of Aroma Park purchased 0.05 MGD of capacity rights from the City of Kankakee. The purchase price was for (1) reimbursement for debt service paid by the City of Kankakee from bond issuance date to date of purchase prorated for the capacity purchased to a total plant capacity of 24.9 MGD, (2) Interest at 6% on the debt service reimbursement, (3) Assumption of future debt service for the capacity purchased prorated on a total capacity of 24.9 MGD.

The capacity ownership allocations as of April 30, 2024 and 2023 were as follows:

	MGD	Percent
City of Kankakee	13.55	54.42%
Village of Bourbonnais	7.40	29.72%
Village of Bradley	3.80	15.26%
Village of Aroma Park	0.15	0.60%
TOTAL	24.90	\$ 100.00%

The intergovernmental agreement dated May 1, 1996 in paragraph VI (F) stipulates that the Agency shall allocate all of those costs which it incurs which are attributable to the operations, maintenance, and improvement of the RWTF among the members and participants based on their respective utilization of the RWTF.

Of the total operation, maintenance, and replacement costs to be allocated, 100% shall be allocated in proportion to the hydraulic flow, measured in MGD that each participant contributes.

NOTES TO FINANCIAL STATEMENTS (Continued)

4. RELATED PARTY (Continued)

For the years ended April 30, 2024 and 2023, the hydraulic flows of the participants were as follows:

April 30, 2024	MGD	Percent
City of Kankakee Village of Bourbonnais Village of Bradley	3,244.62 1,342.13 588.13	62.50% 25.86% 11.33%
Village of Aroma Park	16.02	0.31%
TOTAL	5,190.90	100.00
April 30, 2023	MGD	Percent
City of Kankakee Village of Bourbonnais Village of Bradley Village of Aroma Park	3,098.91 1,190.58 518.92 14.94	64.25% 24.68% 10.76% 0.31%
TOTAL	4,823.35	100.00

The participants make monthly payments for the estimated operation and maintenance expenses, administrative expenses, capital outlay, debt service, and other estimated equity transactions. Changes in actual expenditures as compared to budget, as well as changes in actual relative flows as compared to estimates create differences which are calculated and reflected in the participant receivable/payable accounts which are carried over from year-to-year until availability of working capital enables repayment.

5. RISK MANAGEMENT

The Agency is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; natural disasters; injuries to and illnesses of the Agency's employees. These risks, along with medical claims for employees and retirees, are provided for through insurance purchased from private insurance companies. There have been no reductions in the Agency's insurance coverage for any of its programs since the prior fiscal year. Settlements have not exceeded insurance coverage during the current year or prior three fiscal years.

NOTES TO FINANCIAL STATEMENTS (Continued)

5. RISK MANAGEMENT (Continued)

The Agency also participates in the Illinois Public Risk Fund which has purchased insurance from Safety National Casualty Corporation expiring on January 1, 2025 and includes \$3,000,000 in workers compensation coverage.

6. LONG-TERM DEBT

a. Changes in Long-Term Debt

TOTAL	\$ 53,030,412	\$ 57,574	\$ 4,502,901	\$ 48,585,085	\$ 4,505,777

b. Revenue Bonds

On August 31, 2016, the Agency issued \$10,150,000 (plus premium of \$1,294,010) in Revenue Bonds, Series 2016 with an average interest rate of 4.60%. The proceeds principally were used to advance refund the Series 2007 Bonds. The proceeds used for the refunding and other resources were deposited in an irrevocable trust to provide for future debt service on the Series 2007 Bonds. As a result, that portion of the Series 2007 Bonds is considered defeased, and the Agency has removed the liability from its accounts.

NOTES TO FINANCIAL STATEMENTS (Continued)

6. LONG-TERM DEBT (Continued)

b. Revenue Bonds (Continued)

Sewage Treatment Facility Revenue Bonds constitute special obligations of the Agency secured by a pledge of the net revenues of the system and various special accounts established by the bond ordinance. The ordinance provides that the revenue of the system is to be used to pay operating and maintenance expenses of the system and to establish and maintain the Revenue Bond accounts. The Agency has covenanted in the Bond Resolution to establish, maintain and collect at all times reasonable fees, charges and rates for the use and service of the Facility, sufficient at all times (i) to pay Operation and Maintenance Costs, (ii) to provide an adequate depreciation fund, (iii) to provide Net Revenues in each Fiscal Year in an amount equal to not less than 120% of the Current Debt Service Requirement for all Outstanding Bonds and other obligations payable from the Senior Bond and Interest Account for such Fiscal Year, and (iv) to provide for the creation and maintenance of the respective Accounts. Remaining revenues may then be used for any lawful purpose.

The ordinance also contains provisions, which among other items, restrict the issuance of additional Revenue Bonds unless the special accounts noted above contain the required amounts and certain financial ratios are met.

The participants of the Agency make monthly payments which are estimated to provide for operation and maintenance expenses, all other expenses, capital outlay and debt service requirements. Billings for these monthly payments are as follows:

Years Ended April 30,	2024		2023		
City of Kankakee	\$ 6,741,3	11 \$	5,643,078		
Village of Bourbonnais	3,109,12	28	2,818,476		
Village of Bradley	1,494,50)4	1,388,940		
Village of Aroma Park	52,68	30	48,048		
TOTAL	\$ 11,397,62	23 \$	9,898,542		

c. IEPA Loans

IEPA Loan #1: In October 2004, the Agency was approved for a loan by the Illinois Environmental Protection Agency for a project including the design and construction of several equipment upgrades at the sewage treatment plant for odor control and improved sludge handling. The project was significantly completed on August 22, 2006. As of April 30, 2024, the Agency has net funds borrowed of \$6,691,517, including \$132,011 of capitalized interest, on this loan. The loan requires repayment over 20 years including interest at 2.50%.

c. IEPA Loans (Continued)

IEPA Loan #2: On September 23, 2011, the Agency was approved for another loan totaling \$13,572,410 by the Illinois Environmental Protection Agency for a project to rehabilitate five influent screw pumps and dissolved air flotation equipment, install a new digester gas generator system and diesel generator with heat recovery systems, and upgrades to several other equipment and building systems, including the existing SCADA system. As of April 30, 2024, the Agency has net funds borrowed of \$11,528,104, including \$259,479 of capitalized interest and \$2,500,000 of forgiven principal, on this loan. The loan requires repayment over 20 years including interest at 1.25%.

IEPA Loan #3 and #4: On October 22, 2012, the Agency was approved for another loan totaling \$15,000,000 (IEPA Loan #3) by the Illinois Environmental Protection Agency for a project replacing the anaerobic digestion system, upgrading the activated sludge system, and improving wet weather facilities and other miscellaneous equipment replacements. As of April 30, 2024, the Agency has net funds borrowed of \$15,310,816, including \$310,816 of capitalized interest, on this loan. The loan requires repayment over 20 years including interest at 2.295%.

In order for the project to be fully funded, the Agency entered into another loan from the IEPA (IEPA Loan #4) for the project balance of \$2,188,500 on January 9, 2013. As of April 30, 2024, the Agency has net funds borrowed of \$1,734,872, including \$33,892 of capitalized interest, on this loan. The loan requires repayment over 20 years including interest at 1.93%.

IEPA Loan #5: On January 9, 2013, the Agency was approved for another loan totaling \$19,279,600 by the Illinois Environmental Protection Agency. These funds are to be used to continue the project started with IEPA Loans #3 and #4 (see above for project details). Since the project is quite extensive, it is broken out into phases. Phase IA is covered by the prior two loans, and the additional IEPA Loan #5 will cover phase 18. As of April 30, 2024, the Agency has net funds borrowed of \$18,889,061, including \$200,704 of capitalized interest, on this loan. The loan requires repayment over 20 years including interest at 1.93%.

IEPA Loan #6: On March 12, 2015, the Agency was approved for another loan totaling \$19,569,000 by the Illinois Environmental Protection Agency. These funds are to be used to continue the project started with IEPA Loans #3 and #4, specifically Phase IC. As of April 30, 2024, the Agency has net funds borrowed of \$18,895,595, including \$218,842 of capitalized interest and \$275,000 of forgiven principal, on this loan. The loan requires payments over 20 years including interest at 1.995%.

NOTES TO FINANCIAL STATEMENTS (Continued)

6. LONG-TERM DEBT (Continued)

d. Defeased Debt

On August 31, 2021, the Village of Bourbonnais, a participant of the Agency, sold its portion of the wastewater collection system to Aqua Illinois, Inc. for \$32,100,000. In conjunction with the sale, the Village of Bourbonnais transferred \$2,527,608 to an irrevocable trust held by an escrow agent to pay for its portion of the remaining bond and loan debt service payments. The irrevocable trust pays the Agency for the Village of Bourbonnais' portion of debt service payments as they become due. As a result, Village of Bourbonnais' portion of debt are considered to be defeased in substance and the liability for their portion of bonds and loans have been removed from the Agency's financial statements. The advanced refunding reduced the total debt service payments over the next six years by \$2,565,118 and resulted in a deferred loss on refunding of \$226,705 that will be amortized over the remaining life of the bond. As of April 30, 2024, \$1,649,308 is left to be paid on the on the defeased debt.

e. Pledged revenues

The Agency has pledged revenue, net of specific operating expenses, to repay the principal and interest of the revenue bonds and IEPA loans. The pledge will remain until the bonds and loans are retired. During the years ended April 30, 2024 and 2023, the Agency recognized pledged revenues of approximately \$10,482,000 and \$9,899,000, respectively. These revenues were equivalent to approximately 120% of the required principal and interest payments for debt directly secured by pledged revenues.

f. Debt Service to Maturity

The annual requirements to amortize to maturity bonds payable outstanding as of April 30, 2024 are as follows:

Fiscal Year Ending	Bonds Payable				
April 30,	Principal			Interest	
2025	\$	830,000	\$	157,750	
2026		865,000		115,375	
2027		915,000		70,875	
2028		960,000		24,000	
TOTAL	\$	3,570,000	\$	368,000	

NOTES TO FINANCIAL STATEMENTS (Continued)

6. LONG-TERM DEBT (Continued)

f. Debt Service to Maturity (Continued)

The annual requirements to amortize to maturity IEPA Loans outstanding as of April 30, 2024 are as follows:

Fiscal Year	IEDA I	IEPA Loans					
Ending		Loans					
April 30,	Principal	Interest					
2025	\$ 3,726,337	\$ 758,541					
2026	3,800,318	684,560					
2027	3,642,988	609,224					
2028	3,505,366	540,605					
2029	3,572,747	473,224					
2030-2034	18,587,036	1,307,690					
2035-2036	3,127,256	60,640					
							
TOTAL	\$ 39,962,048	\$ 4,434,484					

7. RETIREMENT PLAN

The Agency has a 401(k) defined contribution plan which covers all full time employees who are 18 years or older and have completed three months of employment. Agency contributions are discretionary. The Agency participates through matching contributions of up to 7% of a participant's salary. Total contributions were \$137,772 and \$130,388 for the years ended April 30, 2024 and 2023, respectively.

8. P.I.L.O.T. FEES

The Agency is a tax-exempt public body, and is not subject to taxes on its property that would provide revenue to the City of Kankakee (City). The Agency has agreed to compensate the City by making annual payments in lieu of taxes (P.I.L.O.T.) to the City of \$100,000 for police, fire, and public works services for as long as the facility resides within the corporate boundaries of the City.
