Providing Wastewater Treatment to the Kankakee River Valley

Monthly Operations Report November 2021

# KRMA'S NOVEMBER HIGHLIGHTS:

With Congress passing the Bipartisan Infrastructural Investment Act, 1.2 trillion dollars in funding to nation's infrastructure by the House of Representatives, allocates approximately \$550 billion to be spent in the next 5 years. There is approximately \$51 billion allocated to drinking water, wastewater, and collection systems infrastructure funding.

During 2022, the Illinois Environmental Protection Agency (IEPA) is participating in the federal Clean Water Needs Survey. The survey is sponsored by the USEPA, to estimate the national needs for wastewater related projects. The Kankakee River Metropolitan Agency (KRMA) will participate in the survey to assure that Illinois and KRMA receive its fair share of funds.

As the rising cost of chlorine continues, the Agency completed its chlorination season May through October without any fecal or chlorine violations of the NPDES permits. Thank you to the KRMA staff for their excellence in protecting the receiving water, the Kankakee River.

The month of November, the KRMA had no violations of the Illinois Environmental Protection Agency NPDES (National Pollutant Discharge Elimination System) permits.
