

# MICHAEL NELSON, JD, MBA

## PEOPLE-CENTERED LEADERSHIP FOR HUMAN-AI PARTNERSHIPS

Michael Nelson equips organizations to strategically navigate the AI revolution with confidence. Drawing on his expertise as a director-level leader, attorney, entrepreneur and author, Michael addresses the human elements of the AI Era through impactful keynotes and workshops. His book 'AI-Ready Leadership™' provides leaders with frameworks for managing effectively in an AI-integrated workplace.

## SPEAKING AND WORKSHOP TOPICS

### LEADING AND BUILDING CONFIDENCE IN THE AI ERA

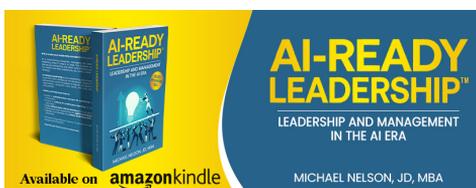

Transform uncertainty into competitive advantage by equipping leaders to guide successful AI integration. Michael provides practical frameworks that help managers create psychological safety, accelerate adoption, and develop teams that thrive amid technological change.

### BUILDING TRUST-BASED HUMAN-AI PARTNERSHIPS

Address workforce anxiety about AI with proven strategies for collaborative human-AI teams. Michael demonstrates how organizations can leverage complementary strengths, build employee confidence, and develop resilient teams that drive innovation rather than resist change.

### LEADING ETHICAL AI TRANSFORMATION

Navigate AI's technical and ethical complexities without requiring technical expertise. Michael equips executives with decision-making frameworks that transform ethical challenges into strategic advantages. Your leadership team will confidently guide responsible AI initiatives that enhance reputation and drive sustainable growth.
