

Creativity & Application in Art and Design Products, Services & Wellness

METAMORF Art and Design solutions addresses problems with intersection of art and design. Solutions for evolving challenges of creative & innovation fraternity. Client centric and customized. Sector and domain agnostic. Ready to implement, minimum turn around, and cost effective.

We have developed solutions to cater to evolving challenges of creative & innovation fraternity:

- Intangibles of thoughts & ideas to tangible form of visual connect & application of design - projects.
- Art & design for experiential learning through workshops.

Art Creatives

Creatives in various mediums of thoughts and ideas into tangible forms.
Effective in visual communication, branding, and concepting.

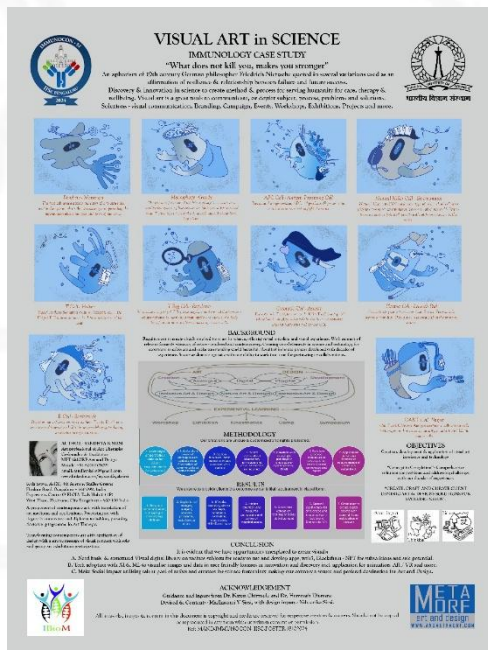

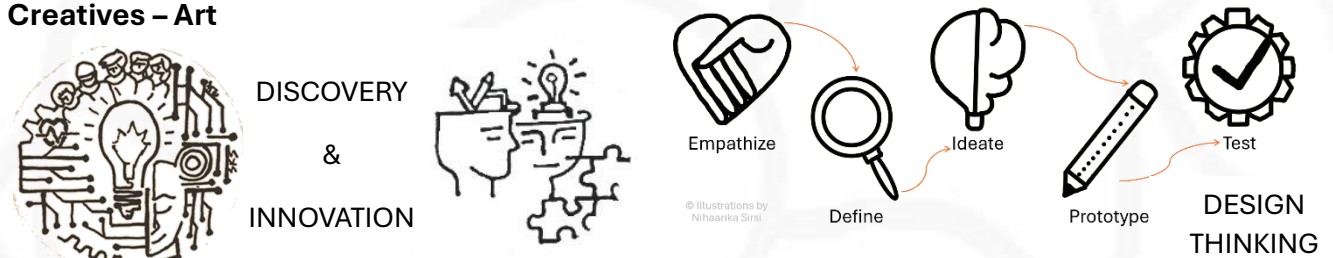

Design Applications

Products, Projects and Prototyping - 3d printing.
Adoption of AI for XR – AR/VR and UX input - app / website.

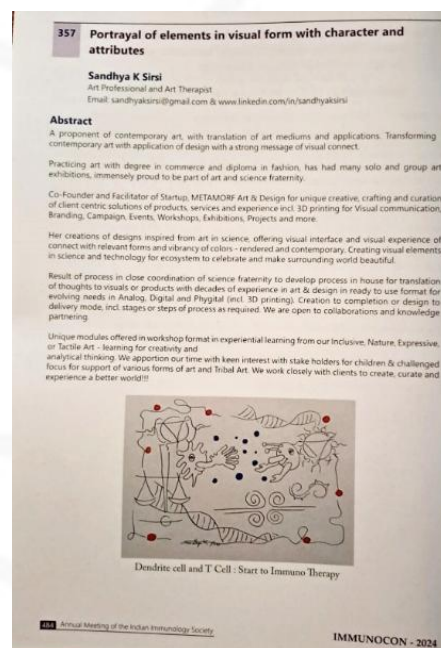

Workshops - Experience

Created for enhancing cognitive ability in training, skill development and orientation.

Creatives – Art

Poster

Publication

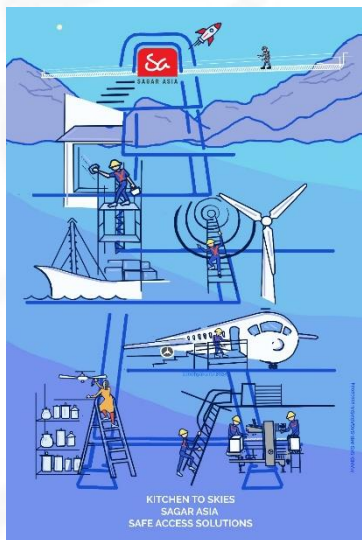

Presented a poster
IMMUNOCON 2024 at
IISc, Bengaluru.
Created with concept
“What does not kill
you, makes you
stronger”.

Certificate

Immunology depiction through character and attributes. Dendrite – Messenger, Macrophage – Greedy, APC Cell – Antigen Presenting Cell, Natural Killer Cell – Exterminator, T Cell – Helper, T Reg Cell – Regulator, Cytotoxic Cell – Assassin, Plasma Cell – Launch Pad, B Cell – Rembrandt, CAR-T Cell – Sniper. With guidance and inputs from Dr. Naren Chirmule and Dr. Hemant Dhamne

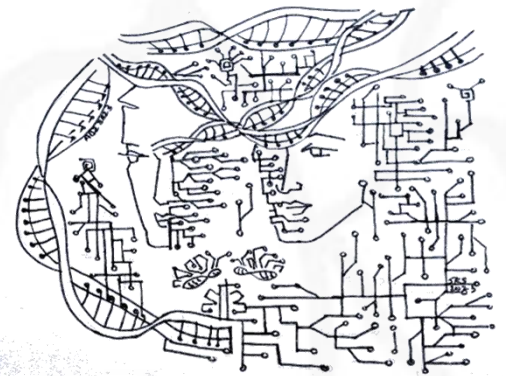

LinkedIn enquiry for challenging face lift to established brand from Sagar Asia, Hyderabad. Mr. Vidyasagar, Chairman & Managing Director, shared ethos, values, vision & focus of organization to create.

The avatars of verticals created with Ladder man mascot for campaigns. The mascot was the core of creative portraying verticals of the company for collaterals including exhibitions. Play of props & colouring for vibrancy.

ELCIA Trust

Inclusive and activity oriented with concept of “Think like an Artist” & “Design Thinking”.

- Learning is a process of colorful journey that enhances innovative prowess through art and design with creativity & analytical thinking
- Modules & sessions include practicing self-expression and application by mind-body connection
- Plugin for experiential learning suited for participants – academia, individual, startup, professionals, institution, industry and corporate

We are open to collaborations and knowledge partnering.

Together, let us create, curate and experience a better world !!!
