Everything is on the rise. Your mortgage. Your health care. Your groceries. But your pay has not kept up. The president wants to give you a 1.6% increase in 2017. That's not enough.

- AFGE has led the fight for a 3.2% catch-up wage adjustment.
- Congress has already cut your pay and benefits by \$182 billion since 2010.
- Lawmakers who value public servants have introduced legislation that would provide you with a 3.2% pay adjustment in 2017 – it's called the FAIR Act.
- AFGE is fighting for fair pay and benefits for government workers.
- All workers deserve fair pay and benefits – including you.
