

# Cherished Warranty

**DARLINGTON**  
CARS

Despite my best efforts, sometimes things do go wrong. But the good news is that your purchase comes with a minimum 3month/3,000miles warranty. It covers all factory-fitted mechanical and electrical components. Which is pretty much everything. In fact, it's easier to say what it doesn't cover than what it does:

Brakes and clutch facings, discs and drums, bulbs, fuses, channels and guides, weather strip and seals, handles, hinges and check straps, trim, upholstery and cosmetic finishes, wheels and tyres, wiper blades and arms, glass, coolant and fuel hoses, auxiliary drive belts, the cleaning or adjustment of any component and the repair and replacement of any part which is required due to normal wear and tear and age\*\*

The Darlington Car Warranty does not cover corrosion.

\*\*Wear and tear exclusion: As the vehicles age and mileage increases, components will reach the end of their serviceable life due to normal wear and tear or age. The repair or replacement of these components, where required due to normal wear and tear or age, will not be covered by this policy.

## How to make a claim:

In the unlikely event that your vehicle develops a fault, please contact Darlington Cars who will arrange to investigate the fault. Following our inspection, should a warranty claim be indicated under the terms and conditions of this warranty, will be repaired to manufactures standards.
