About Social Stats

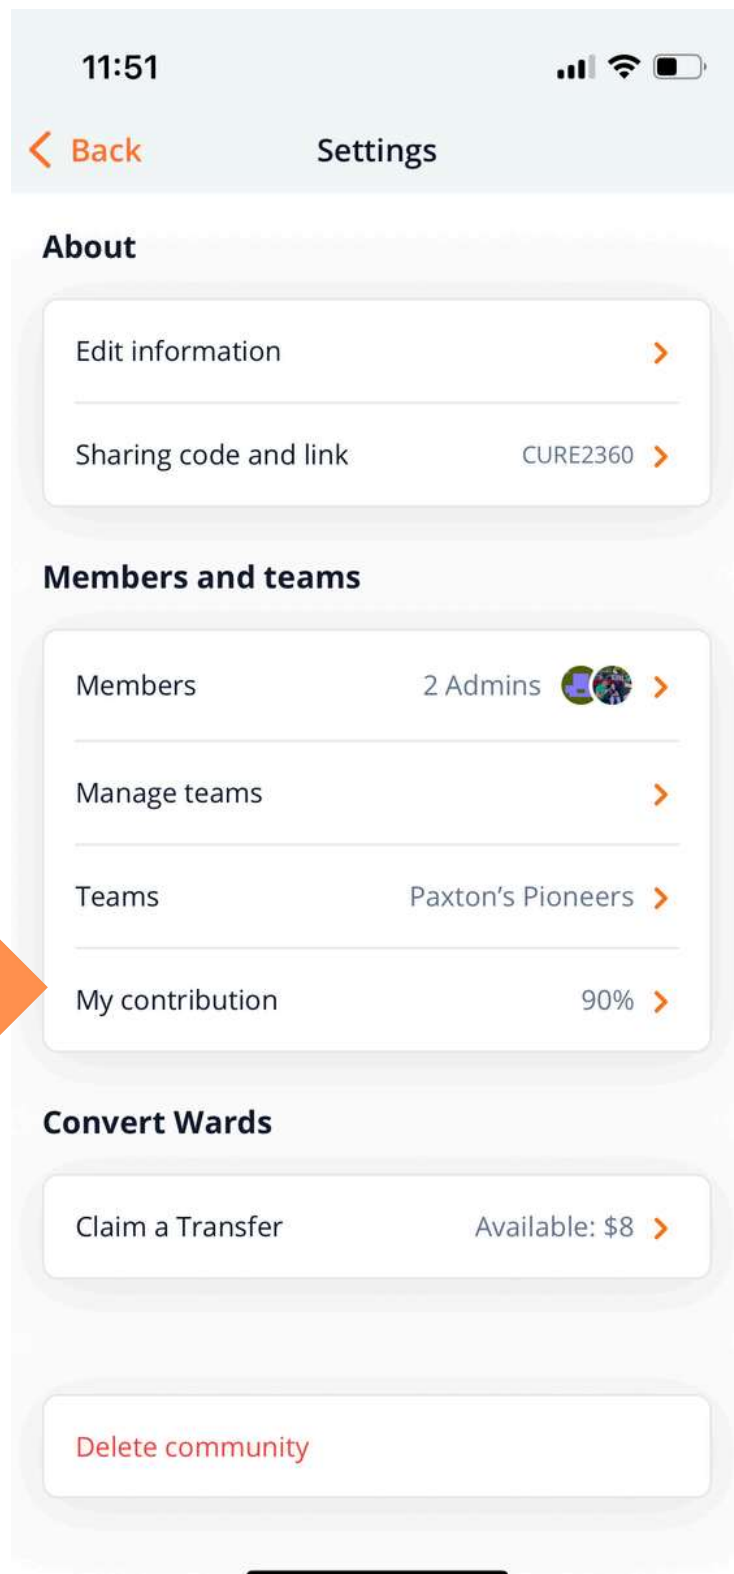

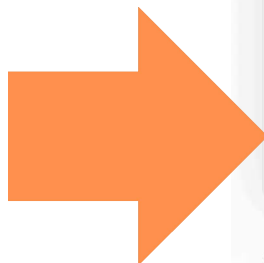

Help fund the phenotyping portion of the mouse model for the Cure CLCN6 gene therapy project, being completed at UMass Chan Medical School!

All wards donated will fund this portion of the gene therapy project, where scientists will observe the effects of CLCN6 mutations in mice and its lethality. This portion of the project is in preparation of the safety and efficacy phase of the project, which will observe the effects of the silence and replace gene therapy being developed at UMass Chan Medical School.

Share

research and development of therapeutics and ultimately, a cure.

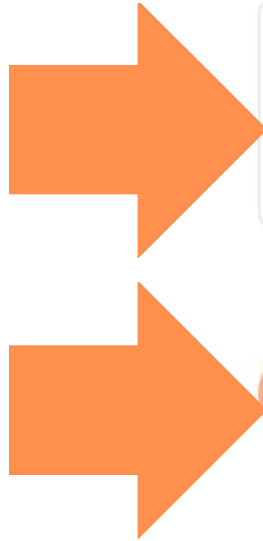

9) Click on “My Contribution”

WALK TO FUND CLCN6 GENE THERAPY

10) Allocate the percentage of earned wards you want to donate to Cure CLCN6

11) Click Save

A screenshot of the 'My contribution' screen in the Weward app. The status bar at the top shows the time 11:51, signal strength, Wi-Fi, and battery. Below the status bar is a navigation bar with a back arrow and the text 'Back' on the left, and 'My contribution' on the right. The main content area is titled 'Contribution'. It features a horizontal slider control with a range from 0 to 100. The slider is currently set to 90%, with a red dot at the 90% mark. Below the slider, the text '90% of Wards go to this community.' is displayed. At the bottom of the screen is a large orange button labeled 'Save'.

****Up to 90% can be donated.
The higher the percentage, the more money you can raise for Cure CLCN6.***
