Mosaic Mindset

Art of Building a Career and Strategy No One Can Copy

F. MICHAEL VALOCCHI

Business & Economics / Leadership · Paperback, Hardcover, eBook

Today's leaders face complex forces a straight-line career map was never built to handle. **Mosaic Mindset** offers a nonlinear framework for leadership and strategy — showing readers how to gather experience like mosaic pieces and build a distinctive career and strategy no competitor can replicate, especially as AI reshapes how leaders think.

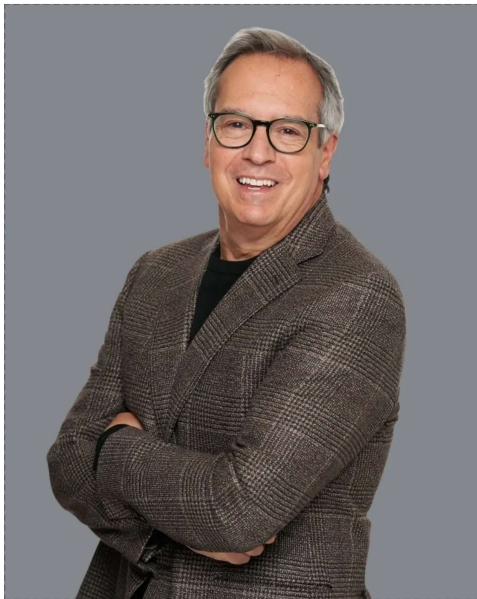

KEY SELLING POINTS

- Gives leaders a practical alternative to the traditional career ladder, right as AI disrupts old playbooks.
- Written by a senior consulting leader with decades at IBM, PwC, Cognizant, and Toptal — a practitioner's framework, not academic theory.
- Endorsed by leaders across startups, culture consulting, bestselling authorship, and responsible AI (Arteage, Fierro, Wild, Saxena).
- Offers a concrete framework readers can apply immediately to their own career and strategy decisions.
- Sits well alongside recent leadership titles like *Genius at Scale* and *The Mosaic Way* — a ready comp for shelf placement.

IDEAL READERS

Readers who feel stuck chasing a fixed career “North Star” that no longer fits a fast-changing, AI-driven world.

Leaders of teams or strategy functions who want a framework for building something distinctive rather than following a template.

ABOUT THE AUTHOR

F. Michael Valocchi is a senior consulting leader who advises executives on strategic business and leadership issues. His experience leading large-scale transformation programs and consulting practices at IBM, PwC, Cognizant, and Toptal gives him an in-depth perspective on the complex issues facing companies today.

Michael holds a BS in accounting from Saint Joseph's University and completed advanced management programs at Wharton, Harvard, Columbia, and Emory.

COMPARABLE TITLES

***The Mosaic Way* • Dr. Karissa Thomas, 2025**

Nearest namesake, also a mosaic metaphor for leadership; Thomas centers emotional intelligence, Valocchi centers career and strategy design.

***Genius at Scale* • Linda A. Hill with Jason Wild, 2026**

Both address leading through disruption; Hill is research-heavy, Valocchi is a practitioner framework.

***Survive, Reset, Thrive* • Rebecca Homkes, 2024**

Both reject linear strategic planning for volatile times; Homkes gives a corporate playbook, Valocchi applies it to the individual leader.
