

Hydrafacial Syndeo

The **Hydrafacial Syndeo** is the most advanced **skin health and hydration system** developed by HydraFacial®, featuring an intelligent connected interface and data-driven personalization. Designed to elevate patient experience and treatment consistency, the Syndeo combines HydraFacial’s signature **Vortex-Fusion technology** with smart serum recognition and touchless gesture controls.

Key Features and Benefits

- **Smart Connected Technology** – Cloud-based data integration ensures treatment customization and performance tracking.
- **Vortex-Fusion Delivery System** – Simultaneously cleanses, exfoliates, extracts, and hydrates using HydraFacial’s signature suction and infusion process.
- **Hands-Free Gesture Controls** – Streamlines operation for a more hygienic and efficient workflow.
- **Automatic Serum Recognition** – Identifies proprietary HydraFacial Boosters and adjusts parameters for optimized delivery.
- **Integrated LED Light Therapy** – Offers red and blue light options for anti-aging and acne-focused treatments.
- **Enhanced Client Experience** – Personalizes each session through data analytics, saving treatment preferences for consistent results.

Specification	Detail
Technology	Vortex-Fusion Hydration and Exfoliation System
Functions	Cleansing, Exfoliation, Extraction, Hydration, Infusion, LED
Serum System	HydraFacial Boosters with Smart Recognition
Energy Type	Vacuum and Infusion Technology
Flow Control	Variable Vacuum and Automated Serum Flow
LED Therapy	Integrated Red and Blue Light
Interface	Smart Touchscreen with Gesture Control
Connectivity	Cloud-Based Data Integration
Condition	Used / Certified Pre-Owned
Indicated For	Cleansing, exfoliation, hydration, and rejuvenation

Specification	Detail
Dimensions	20" x 16" x 38"
Weight	Approx. 80 lbs
Power Requirements	100–240 V AC, 50/60 Hz

Offer Personalized, Next-Generation Skin Treatments

The **Hydrafacial Syndeo** allows your clinic to deliver a premium experience with cutting-edge customization features and advanced skincare capabilities, including:

- Deep cleansing and exfoliation
- Debris and blackhead extraction
- Antioxidant and peptide-rich hydration infusion
- LED light therapy for acne and rejuvenation
- Personalized booster serum delivery
- Real-time treatment data and analytics
