Cars have problems.

Everyone has insurance on their vehicle to protect themselves in the event of an accident. However, less than 20 percent of people will ever utilize their collision insurance. **Unfortunately, it is inevitable that everyone will eventually experience a mechanical breakdown.** Veritas Global Protection Plans provide you with a financially savvy alternative to paying for the potentially enormous costs of a major or minor repair.

A mechanical breakdown can be very stressful - not only costing you money, but significant time. This is why all of our plans also include emergency roadside assistance, towing, and travel interruption coverage.

We provide you with the peace of mind knowing **your vehicle is covered by a company backed by an "A" rated insurer, with an "A+" rating from the Better Business Bureau**, and a reputation for having one of the best customer service departments in the industry!

As an exotic car driver, you know that the cost to fix an engine, transmission, or other component can be astronomical! **You've worked hard for your exotic car - now let us protect it!**
