

money saving tips FOR YOUR BUILD/RENOVATION

Pay a deposit to secure a sale price

Not ready for cabinets, but the company you love is running a sale? Ask about paying a deposit to secure the sale price to be honored when you are ready! We were able to secure 20% off our cabinet fronts by paying a \$200 deposit 6 months prior to placing our order.

Ask for a price break for purchasing in bulk

Maybe you're considering purchasing 20 interior doors from the same company - ask if there is a discount for buying this many.

Always ask about, or look for rebates

This would apply to appliance packages mainly, and more often than not, rebates are available. We received \$1500 back about 6 weeks after delivery of our GE appliances. It took less than 10 minutes to fill out the e-paperwork

Get your credit card in check!

After we got married, in preps for beginning our build, we switched our Delta Amex from points rewards to miles. We haven't outright paid for a flight in 4 years.
