Commission Level

PDCR (street) GA MGA

*LOA – The lowest level contract available is producer (street level). The commission schedule will be embedded in the invitation link that is sent to the agent. After the agent completes the online contract and certifies he/she can assign their commissions to their upline. The agent will need to know the producer ID for their upline. When a corporation is set up, the Corporation producer ID should be selected – NOT the principal's producer ID. The hierarchy and commission assignment change guide can help agents navigate this process. Ask your marketer.
