

Middle School Program Spring 2026

Weekly Schedule 4:30pm-6:00pm

MONDAY - Team-building and Recreation

Participants will learn strategic skills through the art of play and team-building activities.

TUESDAY- STEAM

Participants will learn and apply engineering design in creating art using 3-D printing and online design tools such as Canva and/or Cricut.

WEDNESDAY- STEAM

Participants interested in the arts will learn about art centered on the Deaf experience and develop their own visual storytelling skills.

THURSDAY- Robotics

Participants will learn and apply engineering design and teamwork skills while building and programming robots using a VEX IQ robotics platform.

**Homework and
tutoring help
