

The **Landscape Horticulture Certification Program (LHCP)** promotes professionalism and maintains standards in nursery and landscape horticulture operations across Canada.

The program offers certification for the following professional designations:

- 1) **Certified Landscape Horticulturist Technician (CLHT)**  
**for the following modules:**
  - (a) Ornamental Maintenance
  - (b) Turf Maintenance
  - (c) Softscape Installation
  - (d) Hardscape Installation
  - (e) Irrigation
- 2) **Certified Landscape Designer (CLD)**
- 3) **Certified Landscape Horticulturist Manager (CLHM)**
- 4) **Accredited Landscape Horticulture Company**

Certification exams consist of a series of hands-on practical and/or written tests aligned with skill sets defined in the **Red Seal Occupational Standard for Landscape Horticulturists** and other occupational standards that articulate human resource requirements for the industry.

**Online delivery** enables candidates to take assigned tests at their own convenient time and location, facilitates test assessments and allows more volunteers to participate in professional development.

Contact **CNLA Professional Development** for more information.

**Canadian Nursery Landscape Association**  
*Association Canadienne des Pépiniéristes et des Paysagistes*
