

ENGINEERING 4 YEAR COURSE

ROADMAP WORKSHOP

Plan Today. Prepare Smartly. Succeed Tomorrow.

WORKSHOP OBJECTIVE

A complete roadmap for engineering students to stay on track, build skills, achieve goals and become future-ready professionals.

- DISCIPLINE**
Build self-discipline
Stay focused
- PARENTS' HEART**
Understand, respect
and make them proud
- FRIENDS & INFLUENCE**
Choose the right circle,
stay away from
distractions
- STAY AWAY FROM
BAD HABITS**
Avoid addictions and
time-wasting activities
- BALANCE**
Balance Academics
and Skills the right way
- GOALS & PLANNING**
Set goals, make plans
and work consistently

Learn discipline,
make the right choices

Balance academics
& skills

Set goals and
plan your journey

Understand college life
and resources

Build confidence &
face competition

Become a professional
with strong values

4 YEAR ROADMAP PLAN

YEAR 1

BUILD THE BASE

- ✓ Know about college, friends and environment
- ✓ Understand and utilize college resources
- ✓ Develop essential skills (Communication, Time Management, etc.)
- ✓ How to get good grades in first year
- ✓ Explore all departments, clubs and opportunities

SEMESTER FOCUS

Adapt | Explore | Learn
Build Foundation

YEAR 2

LEARN & LEVEL UP

- ✓ Core subjects start – build strong fundamentals
- ✓ Start coding skills (Irrespective of branch)
- ✓ Attend workshops, hackathons & technical events
- ✓ Participate in inter & national level symposiums & presentations
- ✓ Work on presentations & soft skills

SEMESTER FOCUS

Strengthen Basics | Code Daily
Participate | Improve

YEAR 3

EXPLORE & EXPERIENCE

- ✓ Balance academics and advanced skills
- ✓ Explore internship opportunities
- ✓ Work on real-world projects & mini projects
- ✓ Participate in national level hackathons
- ✓ Earn technical certifications

SEMESTER FOCUS

Build Projects | Gain Exposure
Learn | Grow

YEAR 4

PREPARE & ACHIEVE

- ✓ Focus on placement preparation & aptitude
- ✓ Work on major projects & build portfolio
- ✓ Apply for paid internships
- ✓ Explore highest package opportunities
- ✓ Mock interviews, resume building & personal branding

SEMESTER FOCUS

Placement Ready | Excel
Achieve | Succeed

WORKSHOP FORMAT

VIRTUAL SESSIONS FOR STUDENTS

4 DAYS

Skills touch-up, guidance,
interactive sessions &
Q&A

PHYSICAL WORKSHOP (FINAL DAY)

At District Headquarter
Function Hall

1 DAY (FINAL DAY)

With Students + One Parent
(Father/Mother)

9:00 AM to 4:30 PM

SNACKS & LUNCH INCLUDED

Interactive Sessions
for Students & Parents

Expert Guidance

Q&A & Motivation

Networking &
Opportunities

PROGRAM DURATION

Every Year from
MAY-15 to AUGUST-15

LIMITED SEATS

250 ONLY!

WORKSHOP COST

₹3999/-

PER STUDENT

(Includes Final Day Workshop
with Parent, Snacks & Lunch)

ENGINEERING 4 YEAR COURSE ROADMAP

A Practical Workshop for Students & Parents

Plan Today • Prepare Smartly • Succeed Tomorrow

1. WORKSHOP OBJECTIVE

The Engineering Navigator 4 Year Course Roadmap Workshop is designed to help an engineering student understand what to do, what to avoid, and how to plan every stage of the four-year engineering journey. The focus is not only on academics, but also on discipline, skills, confidence, career exposure and professional behaviour.

Key Areas of Guidance

DISCIPLINE	Build self-discipline, consistency and responsible habits before and during engineering.
PARENTS' HEART	Understand parents' expectations, respect their support and make responsible career choices.
COLLEGE LIFE	Understand college systems, resources, opportunities and how to use them effectively.
FRIENDS & INFLUENCE	Choose the right circle and learn how to handle peer pressure and distractions.
STAY AWAY FROM BAD HABITS	Avoid addictions, harmful habits, unnecessary time-wasting and activities that damage career focus.
ACADEMICS + SKILLS	Balance grades, technical skills, communication, projects and practical exposure.
GOALS & PLANNING	Set measurable goals, plan semester-wise and work consistently toward them.

Core Message

Engineering success is not created in the final semester. It is built through four years of disciplined, planned and consistent action.

2. FOUR-YEAR ROADMAP

The workshop gives students a clear direction for each year of engineering.

YEAR 1 — BUILD THE BASE

d basic professional skills.

- Learn how to secure good grades in first year.

YEAR 2 — LEARN & LEVEL UP

vents.

- Participate in inter-college and national-level symposiums.

YEAR 3 — EXPLORE & EXPERIENCE

olving.

- Participate in national-level hackathons and technical competitions.

YEAR 4 — PREPARE & ACHIEVE

ities.

- Target suitable high-package opportunities based on actual skills.

3. SEMESTER-WISE & PERSONAL DEVELOPMENT FRAMEWORK

Students learn how to convert the four-year roadmap into practical semester-level actions.

Stage	Primary Focus	Expected Student Action
Sem 1	Adapt & Foundation	Understand college life, build discipline, improve study habits and communication.
Sem 2	Academic Strength	Stabilize grades, use college resources, explore interests and develop basic skills.
Sem 3	Core + Coding	Build core-subject fundamentals and start regular coding practice irrespective of branch.
Sem 4	Exposure	Join hackathons, symposiums, presentations, workshops and technical communities.
Sem 5	Experience	Explore internships, mini projects, certifications and real-world technical work.
Sem 6	Career Building	Strengthen projects, portfolio, competitions and internship profile.
Sem 7	Placement Readiness	Aptitude, coding/technical preparation, resume, interviews and applications.
Sem 8	Launch	Placement execution, major project completion, professional behaviour and transition to career.

Professional & Personal Behaviour

- How to behave responsibly in engineering college and later as a professional.
- How to choose friends and manage peer influence.
- How to avoid distractions, addictions and harmful habits.
- How to respect parents while taking ownership of career decisions.
- How to balance academics, technical skills, health, relationships and time.
- How to build confidence by taking action rather than waiting for motivation.

4. WORKSHOP FORMAT

A blended five-day programme designed to combine student skill touch-up with parent-supported career planning.

4 DAYS — VIRTUAL	1 FINAL DAY — PHYSICAL
Interactive sessions with students focused on skills touch-up, engineering habits, planning, technical direction, confidence and Q&A.;	District Headquarters Function Hall. Students attend with one parent (Father/Mother). 9:00 AM–4:30 PM. Snacks & lunch included.

After Attending This Workshop, Students Will Know

- How to behave in engineering college and prepare to behave as a professional.
- How to plan every year and every semester across four years.
- What to focus on at each stage for maximum growth.
- How to balance academics, coding/technical skills, projects and career exposure.
- How to prepare for internships, hackathons, certifications and placement opportunities.
- How to face competition with confidence and continuously improve themselves.

Who Should Attend?

Engineering Student + One Parent (Father or Mother)

The parent-student format encourages a common understanding of expectations, responsibilities, discipline and long-term career planning.

5. PROGRAM DETAILS & REGISTRATION

Programme	Engineering Navigator — 4 Year Course Roadmap Workshop
Annual Window	Every year from May 15 to August 15
Duration	5 Days — 4 virtual days + 1 final physical workshop day
Physical Session	District Headquarters Function Hall, 9:00 AM to 4:30 PM
Participants	Engineering student + one parent (Father/Mother)
Limited Seats	250 seats only
Workshop Cost	₹3,999 per student
Included	Final-day workshop with parent, snacks and lunch
Booking	Book the programme in advance through the Engineering Navigator website
Contact & WhatsApp	8919588490
Website	www.engineeringnavigator.in
