### PRIORITY AND SIG SOLUTIONS

- SCHOOL TRANSFORMATION
- ACADEMIC OVERTIME

We draw on a key set of coaching principles which build capacity and improve performance. We partner with districts / schools to improve the performance of administrators, teachers, and students.

We understand what is at stake and refuse to throw in the towel until desired results are achieved.

EXTENDED LEARNING

PROFESSIONAL DEVELOPMENT

PARENT EMPOWERMENT

LEADERSHIP TRAINING

EARLY INTERVENTION

### TRANSFORMING EDUCATION

Each of our academic reinforcement programs engages students in relevant literacy and mathematics experiences through researched-based practices. Our curriculum is aligned to the Common Core standards and has proven to raise student achievement. Programs purposefully accelerate learning, target character development, and systematically integrate the principles of STEM in each academic reinforcement solution.

#### - ANTI-BULLYING & CHARACTER DEVELOPMENT

*Tackle Bullying in your school or community with "Do You!"*

- A comprehensive approach is required to combat bullying.
- Students, parents, educators and the community partner to attack the issues of bullying.
- We work together to take responsibility for breaking the code of silence - bullying is stopped.

We offer ready to go lessons that integrate the arts and athletics throughout our units in addition to the traditional STEM programs. We believe students must be well-rounded, experience real-world problems and be required to develop real-world solutions.

Our TEAMS products increase exposure and motivates student thinking at the highest levels.
