

Dear Fellow Classmates,

Can you believe it? Our 60th Norwin Class Reunion is almost here! Yep, the Big 6-0 is sneaking up on us faster than our next birthday. Mark your calendars, dust off your orthopedic sneakers and get ready for a weekend of memories, laughter, and probably a lot of “Now, what was your name again?”

I personally need/want/hope/pray to see every single one of you! Too many of my California friends have been taking that one-way UBER ride to Heaven lately—and trust me, I have deleted the app on my cell for a few more years (God willing!). So, let us gather while we still can.

Covering six decades of wisdom, wit, family and at least a few stories about replacement parts (knees, hips, hairpieces...).

More info will be coming soon about how to register and where to send checks (yes, checks—because Zelle (electronic pay service) does not do well with bifocals). **Please let us know soon if you're planning to attend.** We understand things come up, but we really need a “Real Good Feel” for numbers, so we do not accidentally book a room too small—or worse, order too few desserts. (And let us be honest: dessert is why most of us still go out at night.) No firm commitment is being made.

The Class of '65 had about 130 show up for their 60th this year. Since we are **younger, better looking, and obviously more fun**, I am counting on us to beat that number! Are you with me??

Looking forward to seeing all of you—wrinkles, wisdom, walkers, wigs, and all.

Love ya, Dan Casagrande
