Training Course Specification

Course Title	Asbestos Awareness Level 1
Course Description	Our Asbestos Awareness course provides essential knowledge to help you recognise asbestos containing materials, understand the serious health risks associated with asbestos exposure and know what to do if you suspect asbestos is present. You'll learn where asbestos is commonly found, how to avoid disturbing it and the legal responsibilities surrounding asbestos awareness. Suitable for anyone who may encounter asbestos during their work and helps you work safely while protecting yourself and others.
Course Duration	1 hour
Max no of participants	12
Who should attend	Anyone who may encounter asbestos during their work
Pre-requisites	N/A
Course Content	• Understanding what asbestos is and why it is hazardous to health • Identifying common asbestos containing materials and where they may be found • Recognising the risks of asbestos exposure and how to avoid disturbing asbestos • Understanding your legal responsibilities and safe working practices • Knowing what to do if you discover or accidentally disturb suspected asbestos
Assessments	Delegates will be continuously assessed throughout the course, to ensure they have met the learning outcomes. Learning objectives are also reinforced through written answers.
Course Costs	TBA – Quote upon request
