

Business Acquisition Financing

Services we provide:

- **Analysis of the purchase price.** We determine if the purchase price can be supported based upon the cash flow of the acquired entity.
- **We do an in-depth analysis** to determine whether the purchase price is within the standards of the industry.
- **Financing to purchase the company.** We do this by leveraging the existing assets of the company to the maximum amount based upon cash flows available, keeping your cash requirements to a minimum.
- **We can also provide the equity necessary** should there be a cash shortfall between the financing and the cash you are putting into the transaction.
