BLOC Main Offices

RE: Product Review

To whom it may concern,

I was given the opportunity to see this product in use, and did have the chance to film an instructional video of this product. I was very impressed with the capabilities of this product, and whole heartedly believe that this product will save lives. The applications of this product are not limited to Law Enforcement and other first responders however. This product could be deployed in our schools and by health care professionals in the likelihood that exposure to a substance could happen.

I am proud to associate my name with this product, and hope to see this product deployed nationwide to first responders and anyone else that may come into contact with these substances. BLOC is easy to use and can be employed by even untrained personnel in an emergency situation. I am pleased to have been given the opportunity to be involved with such a great tool to be used in the field. BLOC is cutting edge technology and will be extremely effective when deployed.

If you have any questions, please do not hesitate to contact me at the office or by email at [mlehman@co.venango.pa.us](mailto:mlehman@co.venango.pa.us) or my cell phone at 814-671-4973

Sincerely,

Matthew Paul Lehman  
Deputy Sheriff
