

Black Controls Company Inc. becomes Rittal's first Certified Systems Integrator of 2022

2022-02-11. Rittal Systems Ltd. is pleased to welcome our first Rittal Certified Systems Integrator of 2022, Black Controls Company Inc.

Black Controls provides superior automation and controls solutions for clients in North America, Europe, and Asia in the areas of Material Handling, Consumer Products, and Sterilization. Headquartered in their new location in Barrie - Ontario, Black Controls consists of skilled designers, electricians, and programmers who create the industrial control systems.

Black Controls has joined Rittal's highly qualified group of Certified System Integrators who have demonstrated exceptional knowledge and experience in specifying and configuring Rittal enclosure and climate control systems, with great proficiency.

Rick Black, Owner, Black Controls Company Inc. stated, "We are pleased to become a Rittal Certified Systems Integrator, which endorses our team's technical excellence in mastering Rittal's range of market-leading enclosures and climate control systems. This certification will provide us with further training and the opportunity to collaborate globally with Rittal's team of experts. Our end goal is always to ensure that our customers receive the highest levels of service and the most comprehensive, integrated automation solutions for their needs."

Vernon Mascarenhas, Technical Account Representative, Rittal Systems Ltd., said, "It has been a pleasure to be part of Black Controls' phenomenal growth over the last 2.5 years. Rick has taken the company to new heights from the time he started building panels in his garage to the forward-thinking and fast-growing global company that it has become today. Rittal is delighted to welcome Black Controls as our valued Certified Systems Integrator and we look forward to playing a role in their future growth!"

Black Controls specialises in three key areas:

- Automation: They offer a variety of superior automation solutions including programming, design, robotics, machine vision, and wiring.
- On Site Support: Customers can count on Black Controls for excellent service and support. This includes everything from electrical installations, process commissioning and development to troubleshooting and upgrades.
- Manufacturing: Black Controls' expert team designs and builds quality manufacturing solutions such as custom control cabinet assembly and wiring as well as machine wiring and pneumatic plumbing.
