January 5, 2022

To Whom It May Concern,

I am writing to support my client, Kevin Sleem, in his efforts to continue his education at your institution.

Kevin has been engaging with our mental health services regularly and has been taking his medication as prescribed since before I began working with him in August. He has presented with cordial and polite behavior during our interactions and has shown himself to be dedicated to his studies, as he has successfully completed several classes at alternate institutions during the Fall Semester of 2021.

It is our opinion that he does not pose any threat at the current time to the institution at Durham Technical Community College.

Thank you for your consideration,

Andrew W. Hill, MSW, MA, QP
