PENNY BOAT

CHALLENGE
2021 "BATTLESHIP" VERSION

WHERE

Long Beach Sea Base

We will have the sea base open to anyone who would like to participate in person, we will be strictly adhering to social distancing protocols. We will also have a camera set up for a live zoom for those participants who choose to participate virtually!

WHEN

February 27th, 2021 @0900 event starts promptly at 1000
Bring a lunch. Following lunch we will be working on the Maui Diamond

WHAT YOU'LL NEED

- 3" x 5" note cards
- Clear scotch tape (not packing tape)
- Scissors
- Ruler
- A bunch of pennies (20)
- 6 sided dice (Did not know there was anything else)
- Markers if you want to decorate your boat

Each participant will build the same vessel, no creativity on this build, sorry. Vessels built not to these specs will be disqualified. You will build with the 3" x 5" cards and the clear tape.

Each boat will be 3 inches wide by 4 inches long by ½" in tall, think of a french fry box (from IN-N-OUT)

THE RULES

We will take everyone's name and create a bracket. You will be competing one by one until you reach the top of the bracket.

Each vessel will be floating in a body of water. Each person will have a stack of pennies to use as ammo. Then they will take a turn by selecting a location on the vessel (bow, stern, port or starboard) the participant will then roll a 6 sided dice to indicate the number of pennies to be dropped onto the boat in that pre-determined section, then the player will roll again to indicate how high the

pennies will be dropped from (each number on the dice will equal 2 inches high for a maximum of 12inches). Each person will take turns until their opponent's boat sinks!

Example play;

Player 1 rolls dice, gets a 5

Player 1 gathers 5 pennies and rolls again and gets a 3

Player 2 selects area to drop pennies on

Player one will then drop 5 pennies onto their opponents boat from a height of 6inches. ***

Then player 2 takes their turn.
