Natural wood Made to last

Kebony® is a high quality, sustainable wood that doesn't require any maintenance besides basic cleaning. Kebony® is treated with a patented and environmentally friendly wood treatment process which uses a bio-based fluid and heat to improve the qualities and characteristics of the wood. The cell structure is permanently altered, providing the wood with the abilities and deep tan resembling tropical hardwood.

Henry® Complete weatherization solutions from Henry®

A CARLISLE COMPANY

To prevent moisture intrusion and weatherize a building properly, you've got to start with the right solutions for every inch of the structure.

Step 1: Weather-resistive barriers

Step 2: Flashings

Step 3: Sealants

- Simplify selection and installation
- Mitigate moisture intrusion
- Eliminate uncontrolled air leakage
- Reduce energy consumption

Blueskin® VP100

- Self-seals around nails and fasteners
- Achieves more than 90% drainage efficiency
- Eliminates uncontrolled air leakage
- Improves air quality
- Easy installation; Peel-and-Stick
- Available in 4", 6", 12", & 48" wide rolls

WEATHERSmart®

H O U S E W R A P

- Excellent balance between water resistance and permeability
- Good tear resistance and UV stability
- Part of approved NFLA 285 assemblies
- Available in 3'x100', 9'x100' & 9'x150'

WEATHERSmart

D R A I N A B L E

- Crush-Resistant Drainable Pattern
- Achieves more than 95% Drainage Efficiency
- Outstanding surfactant resistance and UV stability
- Code compliant for use behind masonry
- Available in 3'x100', 9'x100' & 9'x150'

WeatherSmart® Commercial

- Best-in-class tear resistance
- Excellent balance between water resistance and permeability
- Available in 10'x125'
