

Poly		
Yonex Polytour Pro	120 mm	<ul style="list-style-type: none"> <li>• Best for comfort and consistency</li> <li>• Smooth, low powered, very comfortable poly</li> <li>• Excellent tension stability</li> <li>• Predictable response</li> <li>• Not as much spin or bite as shaped strings</li> <li>• Ideal for players who value feel and arm friendliness</li> </ul>
Luxilon Alu Power Soft	120 mm	<p>(\$5 additional charge)</p> <ul style="list-style-type: none"> <li>• Softer, more arm-friendly variant of the iconic ALU Power polyester string (one of the top polyester strings on the tour that's ideal for advanced players looking for combination of explosive power and control)</li> <li>• Control and precision of ALU Power but with a slightly more forgiving feel; signature tour-level response while reducing harshness on impact</li> </ul>
Kirschbaum Max Power	120 mm	<ul style="list-style-type: none"> <li>• Best for big hitters who want firmness</li> <li>• Firmest and most control oriented string (not ideal for most players)</li> <li>• Best only if you want a stiff, dead poly for maximum directional control</li> </ul>
Kirschbaum Pro Line II	120 mm	<ul style="list-style-type: none"> <li>• Best for comfort among thin polys</li> <li>• Soft, lively, and easy to swing with</li> <li>• Good comfort and pocketing</li> <li>• More power, less control</li> </ul>
Diadem Solstice Power	125 mm	<ul style="list-style-type: none"> <li>• Best for maximum spin + comfort</li> <li>• Softer and more elastic than Hyper G; six-pointed star shape that bites the ball extremely well</li> <li>• Top tier spin (arguably more than Hyper G)</li> <li>• More power and comfort</li> <li>• Slightly less control and durability than Hyper G</li> </ul>
Solinco Hyper-G 125	125 mm	<ul style="list-style-type: none"> <li>• Best overall for modern baseline play</li> <li>• Hyper G gives the most balanced mix of spin, control, and confidence on full swings</li> <li>• Elite spin from its square profile</li> <li>• Firm but not harsh, great for aggressive players</li> <li>• Stable response even at lower tensions</li> <li>• Works in full beds or hybrids</li> <li>• If you hit heavy topspin or like taking big cuts, this is the most complete option</li> </ul>
Synthetic Gut		
Kirschbaum	130 mm	<ul style="list-style-type: none"> <li>• Excellent balance of comfort, power, durability and spin</li> <li>• Solid core wrapped with flexible filaments for enhanced playability and comfort</li> <li>• Ideal for players seeking all-around performance and perfect for hybrid setups with Kirschbaum Pro Line</li> <li>• Great for beginners, recreational players, and anyone who wants a dependable, easy-playing setup</li> </ul>
Multifilament		
Wilson NXT	125 mm	<ul style="list-style-type: none"> <li>• One of the most popular multifilament tennis strings</li> <li>• Designed to mimic the comfort and power of natural gut while remaining more durable and affordable</li> <li>• Ideal for players who want maximum comfort, feel, and a larger sweet spot without switching to natural gut</li> </ul>
