# PREPARING FOR YOUR EXAMINATION

## ADULT PREPARATION

#### ABDOMINAL ULTRASOUND

Nothing to eat or drink after midnight. No breakfast. Take usual medication.

#### ABDOMINAL AND PELVIC ULTRASOUND

Nothing to eat after midnight. A full bladder is required. Drink 1 liter of water and finish one hour before the examination. Do not void until after the ultrasound. Take usual medication.

#### PELVIC AND OBSTETRIC (PREGNANCY)ULTRASOUND

A full bladder is required. Drink 1 liter of water and finish one hour before the examination. Do not void until after the ultrasound.

\*Note: If you are beyond week 30 of your pregnancy, you do NOT need to present with a full bladder.

# CARDIAC STUDIES-ECHOCARDIOGRAPHY AND HOLTER MONITORS

Please refrain from applying lotion to the chest area before your appointment. Once a Holter Monitor has been applied, you will be unable to shower so it is recommended to shower before your appointment.

### PEDIATRIC PREPARATION (12 AND UNDER)

#### ABDOMINAL ULTRASOUND

Nothing to eat or drink for 6 hours. Take usual medication.

#### ABDOMINAL AND/OR PELVIC ULTRASOUND

Nothing to eat for 6 hours. Drink unlimited juice or water so the patient arrives with a full bladder. Do not void until after the ultrasound. Take usual medication.

This requisition form can be taken to any licenced facility providing healthcare services including hospitals and IHF's such as those listed on the IHF Program Website: https://www.health.gov.on.ca/en/public/programs/ihf/facilities.aspx
