Office Safety Precautions in Effect During the Pandemic

My office is taking the following precautions to protect our patients and help slow the spread of the coronavirus.

- Default counseling treatment at this time is telehealth via video or telephone. In person sessions will only be scheduled for those willing to sign a document and adhere to protection protocol.

- Office seating in the waiting room and in therapy room has been arranged for appropriate physical distancing.

- I am wearing a mask when in physical presence of others.

- A restroom is not available at this time.

- Hand sanitizer that contains at least 60% alcohol is available in the office and waiting room.

- I am scheduling in-person appointments at specific intervals to allow cleaning between appointments.

- I am asking all clients to wait in their cars or outside until no earlier than 5 minutes before their appointment times and to text me before coming in to make sure I am ready.

- If possible, clients should pay with credit cards online as opposed to exchanging cash or check. However, cash or check will be accepted.

- No one else may join you in the cottage who is not participating in the session.

- Physical contact is not permitted.

- Tissues and trash bins are easily accessed. Trash is disposed of on a frequent basis.

- Common areas are disinfected at the end of each day.
