About Collars & Co.

Our Mission

Collars & Co.'s mission is to provide men and women with extremely high quality clothing that not only looks great, but feels amazing as well.

Origin

Collars & Co.

Collars & Co. and the Dress Collar Polo™ was created because we hated wearing dress shirts under our sweaters and jackets everyday to work in NYC. It was always uncomfortable, hot, a pain to get on and then after wearing them, we would have to have our expensive dress shirts dry cleaned.

Goal

Comfort & Style

There had to be a more comfortable way to achieve this look since all we really cared about was the collar. We set out on a one year journey to find a factory, the perfect fabric and a designer that could create the perfect buttery soft polo with a standard English spread collar.

I recently came across an forward-thinking menswear item from Collars & Co. The progressive brand has changed the game in the shirting industry. They developed an original dress-collar polo. Essentially, it is a comfortable stretch polo shirt with a structured dress collar. The style provides a hassle-free way to look polished with all the benefits of a classic dress shirt. I own one and I fully endorse the item. More importantly, I am interested in watching this brands development - moving into the near future.

Menswear Focuses Strongly On Sustainability And Craftsmanship In 2022

JOSEPH DEACETIS | DEC 3, 2021

the office to the course easier than ever. The viral product combines a formal English dress collar with the silhouette of a 4-way stretch short-sleeved polo shirt. Layer with a jacket or sweater during the work day for a comfortable but professional look and shed down to the polo when it's time to hit the links.

7 viral TikTok and Instagram golf products worth trying out

In April, Justin Baer posted a video on his TikTok, where he had almost no audience to speak of. The video showed him talking about the problem that inspired his brand, Collars & Co. — the annoyance of wearing a lumpy collared shirt under a sweater — along with a demonstration of his alternative.

The featured shirt has a dressy collar but a soft pullover body meant to look smooth and seamless under a sweater. Baer had only ordered a small batch of 500 pieces, not sure if it would actually take off. But the video went viral, being viewed more than 800,000 times. Within two days, the company had sold out all 500 pieces. Within four months, Baer went from buying 500 shirts at a time to buying 6,000 at a time. Soon, he said, he'll be increasing those orders to 10,000 to keep up with demand.

Account Testimonials-

"I wasn't looking for another shirt line then I gave one to my husband and HE LOVED IT. Since bringing Collars & Co into our shop it has outsold my expectations, selling hundreds of shirts and having to reorder 4 times in the last 3 months. I couldn't believe how many customers had already heard of the brand. Look forward to seeing what Justin has coming next."

"Collars & Co. shirts have sold well in our Pro Shop. Many of our members work in the aerospace industry. They appreciate the professional look of the shirts combined with the technical elements; no wrinkle, no dry cleaning, moisture-wicking, stretchy. Collars & Co. is different, more than a golf shirt."
