# About Collars & Co.

## Our Mission

Collars & Co.'s mission is to provide men and women with extremely high quality clothing that not only looks great, but feels amazing as well.

Origin

### Collars & Co.

Collars & Co. and the Dress Collar Polo™ was created because we hated wearing dress shirts under our sweaters and jackets everyday to work in NYC. It was always uncomfortable, hot, a pain to get on and then after wearing them, we would have to have our expensive dress shirts dry cleaned.

Goal

### Comfort & Style

There had to be a more comfortable way to achieve this look since all we really cared about was the collar. We set out on a one year journey to find a factory, the perfect fabric and a designer that could create the perfect buttery soft polo with a standard English spread collar.

## Forbes

I recently came across an forward-thinking menswear item from Collars & Co. The progressive brand has changed the game in the shirting industry. They developed an original dress-collar polo. Essentially, it is a comfortable stretch polo shirt with a structured dress collar. The style provides a hassle-free way to look polished with all the benefits of a classic dress shirt. I own one and I fully endorse the item. More importantly, I am interested in watching this brands development - moving into the near future.

JOSEPH DEACETIS | DEC 3, 2021

the office to the course easier than ever. The viral product combines a formal English dress collar with the silhouette of a 4-way stretch short-sleeved polo shirt. Layer with a jacket or sweater during the work day for a comfortable but professional look and shed down to the polo when it's time to hit the links.

In April, Justin Baer posted a video on his TikTok, where he had almost no audience to speak of. The video showed him talking about the problem that inspired his brand, Collars & Co. — the annoyance of wearing a lumpy collared shirt under a sweater — along with a demonstration of his alternative.

The featured shirt has a dressy collar but a soft pullover body meant to look smooth and seamless under a sweater. Baer had only ordered a small batch of 500 pieces, not sure if it would actually take off. But the video went viral, being viewed more than 800,000 times. Within two days, the company had sold out all 500 pieces. Within four months, Baer went from buying 500 shirts at a time to buying 6,000 at a time. Soon, he said, he'll be increasing those orders to 10,000 to keep up with demand.
