- ☐ Large open space or outdoor setting (e.g., park, large tent, festival area). Approx. More than 200 guest

3. Estimate Number of Guests:

Answer:

SECTION 3: AMBIANCE & PERFORMANCE STYLE

Service Clarification: The "Sing with me" experience is a specialized, live vocal performance centered on powerful, high-quality singing and iconic, classic repertoire. I am a professional vocalist who curates the energy and focus of the room through superior live performance and interactive entertainment.

1. Please describe the desired ambiance for the performance:

- ☐ Dynamic & Energetic Ambiance: Focus on a vibrant, interactive atmosphere where people could dance. (Repertoire focuses on high-energy Pop from the decades, light Country, and music where vocals are prominent.)
- ☐ Elegant & Romantic Ambiance: Focus on an elegant, background atmosphere, like a hotel bar singer. (Repertoire includes Sinatra, Boleros in Spanish, classic R&B, and smooth jazz styles.)
- ☐ A mix of both, transitioning from elegant to dynamic. (Please provide details when we contact you to schedule)

2. Specific Song/Music Requests or Ambiance Notes:

Answer:

SECTION 4: TECHNICAL & PRICING FACTORS.

Notes Regarding Sound and Technical Services: Please understand that I am a professional live vocalist specializing in high-quality singing and audience interaction, not a DJ. I do not provide DJ services or music management outside of my live performance sets.

Sound Quality Disclaimer: If the client provides the sound service or elects to use the venue's existing sound system, **Vocal Stage Studio will not be responsible for the overall quality or balance of the sound.**

1. Does the venue have its own sound system (speakers, mics, screens) that you can use?

- ☐ Yes, it does. (Likely qualifies for the base performance price \$150/hour). I can connect my performance tracks directly to the sound system and microphones provided by your venue.
- ☐ No, the venue does not have its own equipment.

2. If the venue does NOT have equipment, please select your preference:

Equipment Rental: (Small to Medium Venues): For small to medium venues without existing equipment,

- ☐ I need you (Liz Ahumada) to provide the necessary sound system, though a separate fee for a qualified sound technician will apply. (\$200 / hour + \$50 setup fee)
- ☐ I (The client) will hire a DJ or provide sound service so you can connect your music to it. (Base performance price \$150/hour)

Large Venues /Complex Sound: For large venues or events requiring complex sound coverage, a specialized sound service must be hired to handle all A/V and sound engineering. Please select one of the following:

- ☐ I (The client) will hire and coordinate the professional sound service myself.
- ☐ Please hire and coordinate the professional sound service on my behalf. (A coordination fee will apply in addition to the sound service cost and base performance fee.)

Any additional notes or details about the event:
